Under § 28 (2) 1) through 3) and 5) and § 28 (5) and (6) of the Communicable Diseases Prevention and Control Act and considering § 28 (8) of the same, the following restrictions are imposed:
[RT III, 29.05.2021, 2 - entry into force 01.06.2021]

1. A person who has crossed the state border for the purpose of entering Estonia shall remain in their place of residence or permanent place of stay for 10 calendar days after arrival in Estonia.
[RT III, 29.10.2020, 2 – entry into force 30.10.2020]

1¹. [Repealed – RT III, 01.04.2021, 2 – entry into force 05.04.2021]

2. The 10-calendar-day restriction referred to in clause 1 does not apply if:

1) up to 72 hours before arrival in Estonia a health care provider tested the relevant person with RT-PCR test for the coronavirus SARS-CoV-2 causing COVID-19 or up to 48 hours before arrival in Estonia with a SARS-CoV-2 antigen RTD test approved by the European Union Health Security Committee (hereinafter *SARS-CoV-2 test*), the results of which came back negative, and after arrival in Estonia no earlier than on the sixth day after the first test a health care provider tested the person with a second SARS-CoV-2 RT-PCR test and the results of that test also came back negative or a physician has declared the person not to be contagious. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay;

2) a health care provider has not tested the relevant person with a SARS-CoV-2 RT-PCR test up to 72 hours before arrival in the country or with a SARS-CoV-2 antigen RTD test up to 48 hours before arrival in the country but the person took said test promptly after arrival in Estonia and the results of that test came back negative and no earlier than on the sixth day after the initial test the person took a second RT-PCR test for the coronavirus SARS-CoV-2 causing COVID-19 and the results of that test also came back negative or a physician has declared the person not to be contagious. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay;

3) a person arrives from a third country for which information has not been released on the European Union green list published on the website of the Ministry of Foreign Affairs (hereinafter *European Union green list*) and promptly after arrival in Estonia a health care provider tests the person with a SARS-CoV-2 test and the results of that test come back negative and re-tests the person with a SARS-CoV-2 RT-PCR test no earlier than on the sixth day after the initial test and the results of that test also come back negative or a physician has declared the person not to be contagious. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay.

If according to this clause a health care provider tested a person with a SARS-CoV-2 antigen RTD test and it came back positive but the person was promptly re-tested with a SARS-CoV-2 RT-PCR test which came back negative, the result of the SARS-CoV-2 RT-PCR test shall be the one that counts.

[RT III, 10.07.2021, 3 – entry into force 19.07.2021]

3. A person referred to in clauses 1 and 2 may leave their place of residence or permanent place of stay provided the person takes measures imposed by the Government of the Republic or the Health Board and all other possible measures for preventing the possible spread of the communicable disease and the following circumstances occur:

1) the person is given an order by a health care professional or a police officer to leave their place of residence or permanent place of stay;

2) the person leaves their place of residence or permanent place of stay because a health care professional has referred them to receive health services or in the event of an emergency that puts the person's life or health at risk;

3) the person referred to in sub-clauses 1) and 2) of clause 2 performs urgent and inevitably necessary duties by a decision of their employer and up to 72 hours before arrival in the country a health care provider tested the person with a SARS-CoV-2 RT-PCR test or up to 48 hours before arrival in the country with a SARS-CoV-2 antigen RTD test or after arrival in the country with at least one test for the coronavirus SARS-CoV-2 causing COVID-19, the results of which came back negative, or a physician has declared the person not to be contagious. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay;

[RT III, 10.07.2021, 3 – entry into force 19.07.2021]

4) a person who arrives in Estonia from a third country referred to in sub-clause 3) of clause 2 performs urgent and inevitably necessary duties by a decision of their employer and after arrival in the country a health care provider tested the person with a SARS-CoV-2 test and the result of that test came back negative or if a physician has declared the person not to be contagious. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay. A person who performs urgent and

inevitably necessary duties is also deemed to be an athlete, a coach or a team member who has an employment relationship with a club playing in Estonian championship league or who is involved in an athlete's everyday training activities at the Estonian national team level or who participates in an international high level competition as an athlete or an athlete's team member or who is directly involved in carrying out aforesaid sports competition;

[RT III, 10.07.2021, 3 – entry into force 19.07.2021]

5) the person attends an urgent family occasion and up to 72 hours before arrival in the country a health care provider tested the person with a SARS-CoV-2 RT-PCR test or up to 48 hours before arrival in the country with a SARS-CoV-2 antigen RTD test or after arrival in the country with at least one test for the coronavirus SARS-CoV-2 causing COVID-19, the results of which came back negative, or if a physician has declared the person not to be contagious. This sub-clause applies to a person arriving from a third country referred to in sub-clause 3) of clause 2 only if a health care provider tested the person with a SARS-CoV-2 test promptly after arrival in Estonia and the result of that test was negative. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay;

[RT III, 10.07.2021, 3 – entry into force 19.07.2021]

6) the person is getting the everyday essentials near their place of residence or place of stay because it is otherwise impossible;

7) the person is outdoors and completely avoids contact with other persons;

8) for the performance of urgent duties, acquiring an education or due to a family occasion, the person returns to the country from where the person arrived in Estonia provided up to 72 hours before leaving Estonia a health care provider tested the person with a SARS-CoV-2 RT-PCR test or up to 48 hours before leaving Estonia with a SARS-CoV-2 antigen RTD test, the results of which came back negative, or if a physician has declared the person not to be contagious.

[RT III, 10.07.2021, 3 – entry into force 19.07.2021]

[Last sentence repealed – RT III, 10.07.2021, 3 – entry into force 19.07.2021]

3¹. [Repealed – RT III, 13.01.2021, 5 – entry into force 15.01.2021]

4. The provisions of clauses 1 through 3 do not apply to asymptomatic persons:

1) who are employees of a diplomatic mission or a consular post of a foreign country or the Republic of Estonia or their family members or holders of an Estonian diplomatic passport;

2) who arrive in the Republic of Estonia in the framework of international military cooperation;

3) who are members of foreign delegations arriving in the Republic of Estonia for the performance of duties on the invitation of a state or local authority;

4) who are directly involved in transporting goods and raw products, including loading of goods or raw products, and who arrive in Estonia for the performance of duties;

5) who arrive in Estonia for the purpose of providing health services or other services necessary for responding to an emergency;

6) who are directly involved in international carriage of goods and passengers, including a crew member and a ship's crew member servicing an international means of transport and a person performing repairs or warranty or maintenance work on such a means of transport, and who arrive in Estonia for the performance of duties;

7) whose purpose for arriving in the Republic of Estonia is directly related to the provision of passenger transport services and who are servicing travel groups;

8) whose purpose for arriving in the Republic of Estonia is related to ensuring the continuity of a vital service;

9) who are using the territory of the Republic of Estonia for immediate transit;

10) who are nationals, residents or long-stay visa holders of a Member State of the European Union or a Schengen Member State or an EEA country or the Swiss Confederation or the Principality of Andorra or the Principality of Monaco or the Republic of San Marino or the Vatican City State (Holy See) or the United Kingdom of Great Britain and Northern Ireland or their family members and who arrive in the Republic of Estonia from said countries and who have been in one or several of said countries for the past 10 days in succession, provided the cumulative number of positive tests for the coronavirus SARS-CoV-2 causing COVID-19 per 100,000 inhabitants in said countries for the past 14 days is equal to or less than 75. The Ministry of Foreign Affairs publishes information on the morbidity rates by country on its website;

[RT III, 16.07.2021, 4 – entry into force 19.07.2021]

11) who are persons referred to in sub-clause 10) or persons who are residents of a third country, according to the laws of that country, which is on the European Union green list and who arrive in Estonia from said country, provided the cumulative number of positive tests for the coronavirus SARS-CoV-2 causing COVID-19 per 100,000 inhabitants in said country for the past 14 days is equal to or less than 75;

[RT III, 17.06.2021, 2 – entry into force 21.06.2021]

12) [repealed – RT III, 10.07.2021, 3 – entry into force 19.07.2021]

13) who cross the state border between the Republic of Estonia and the Republic of Latvia at least twice a week for the purpose of urgent cross-border work or studies, provided the relevant person has taken at least one test for the coronavirus SARS-CoV-2 causing COVID-19 during the past seven days and the results of that test have come back negative or a physician has declared the person not to be contagious;

[RT III, 30.04.2021, 1 – entry into force 03.05.2021]

14) whose place of residence is in the administrative territory of the local authorities of Valga in the Republic of Estonia or Valka in the Republic of Latvia and who cross the state border between the Republic of Estonia and

the Republic of Latvia provided they will not go beyond the borders of the administrative territory of the local authorities of Valga and Valka, respectively;

[RT III, 30.04.2021, 1 – entry into force 03.05.2021]

15) who arrive in Estonia for tourism purposes for up to 24 hours if up to 72 hours before arrival in Estonia a health care provider tested the person with a RT-PCR test for the coronavirus SARS-CoV-2 causing COVID-19 the results of which came back negative or if up to 48 hours before arrival in Estonia a health care provider tested the person with a SARS-CoV-2 antigen RTD test which came back negative, unless the person is released from the requirement of testing on other grounds provided for in this Order;

[RT III, 10.07.2021, 3 – entry into force 19.07.2021]

16) who are nationals, residents or long-stay visa holders of a Member State of the European Union or a Schengen Member State or an EEA country or the Swiss Confederation or the Principality of Andorra or the Principality of Monaco or the Republic of San Marino or the Vatican City State (Holy See) or the United Kingdom of Great Britain and Northern Ireland or their family members and who arrive in the Republic of Estonia from said countries and who have been in one or several of said countries for the past 10 days in succession, if the cumulative number of positive tests for the coronavirus SARS-CoV-2 causing COVID-19 per 100,000 inhabitants in said countries for the past 14 days is greater than 75 but no higher than 200 and before arrival in Estonia a health care provider tested them with a SARS-CoV-2 test which came back negative or they were tested with said test promptly after arrival in Estonia and said test came back negative. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay. If according to this sub-clause a health care provider tested a person with a SARS-CoV-2 antigen RTD test and it came back positive but the person was promptly re-tested with a SARS-CoV-2 RT-PCR test which came back negative, the result of the SARS-CoV-2 RT-PCR test shall be the one that counts. The Ministry of Foreign Affairs publishes information on the morbidity rates by country on its website;

[RT III, 16.07.2021, 4- entry into force 19.07.2021]

17) who are 12 to 18-year-old nationals, residents or long-stay visa holders of a Member State of the European Union or a Schengen Member State or an EEA country or the Swiss Confederation or the Principality of Andorra or the Principality of Monaco or the Republic of San Marino or the Vatican City State (Holy See) or the United Kingdom of Great Britain and Northern Ireland and who have been in one or several of said countries for the past 10 days in succession, if the cumulative number of positive tests for the coronavirus SARS-CoV-2 causing COVID-19 per 100,000 inhabitants in said countries for the past 14 days is greater than 75, and who arrive in the Republic of Estonia together with their legal representative or a person authorised to accompany them who is not subject to the 10-calendar-day requirement to remain in their place of residence or permanent place of stay or to the requirements for testing for the coronavirus SARS-CoV-2 causing COVID-19, as set out in this Order, on the condition that before arrival in Estonia a health care provider tested them with a SARS-CoV-2 test which came back negative or a health care provider tested them with said test promptly after arrival in Estonia and said test came back negative. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay. If according to this sub-clause a health care provider tested a person with a SARS-CoV-2 antigen RTD test and it came back positive but the person was promptly re-tested with a SARS-CoV-2 RT-PCR test which came back negative, the result of the SARS-CoV-2 RT-PCR test shall be the one that counts. The provisions of this sub-clause do not apply to groups of minors travelling together (for instance, sports and tourist groups);

[RT III, 16.07.2021, 4- entry into force 19.07.2021]

18) who are 12 to 18-year-old persons arriving in the Republic of Estonia from a third country on the European Union green list, if the cumulative number of positive tests for the coronavirus SARS-CoV-2 causing COVID-19 per 100,000 inhabitants in said country for the past 14 days is greater than 75, and who arrive in the Republic of Estonia together with their legal representative or a person authorised to accompany them who is not subject to the 10-calendar-day requirement to remain in their place of residence or permanent place of stay or to the requirements for testing for the coronavirus SARS-CoV-2 causing COVID-19, as set out in this Order, on the condition that before arrival in Estonia a health care provider tested them with a SARS-CoV-2 test which came back negative or a health care provider tested them with said test promptly after arrival in Estonia and said test came back negative. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay. If according to this sub-clause a health care provider tested a person with a SARS-CoV-2 antigen RTD test and it came back positive but the person was promptly re-tested with a SARS-CoV-2 RT-PCR test which came back negative, the result of the SARS-CoV-2 RT-PCR test shall be the one that counts. The provisions of this sub-clause do not apply to groups of minors travelling together (for instance, sports and tourist groups). The Ministry of Foreign Affairs publishes information on the morbidity rates by country on its website;

[RT III, 16.07.2021, 4- entry into force 19.07.2021]

19) who are 12 to 18-year-old persons arriving in the Republic of Estonia from a third country not on the European Union green list and who arrive in Estonia together with their legal representative or a person authorised to accompany them who is not subject to the 10-calendar-day requirement to remain in their place of residence or permanent place of stay or to the requirements for testing for the coronavirus SARS-CoV-2 causing COVID-19, as set out in this Order, on the condition that a health care provider tested them with a SARS-CoV-2 test promptly after arrival in Estonia which came back negative. Until the test has come back negative the person is required to remain in their place of residence or permanent place of stay. If according to this sub-clause a health care provider tested a person with a SARS-CoV-2 antigen RTD test and it came back positive but the person was promptly re-tested with a SARS-CoV-2 RT-PCR test which came back negative, the result of the SARS-CoV-2 RT-PCR test shall be the one that counts. The provisions of this sub-clause do not apply to groups of minors travelling together (for instance, sports and tourist groups);

[RT III, 16.07.2021, 4- entry into force 19.07.2021]

20) who are persons under 12 years of age arriving in the Republic of Estonia together with their legal representative or a person authorised to accompany them who is not subject to the 10-calendar-day requirement

to remain in their place of residence or permanent place of stay or to the requirements for testing for the coronavirus SARS-CoV-2 causing COVID-19, as set out in this Order. The provisions of this sub-clause do not apply to groups of minors travelling together (for instance, sports and tourist groups).
[RT III, 16.07.2021, 4- entry into force 19.07.2021]

4¹. [Repealed – RT III, 09.10.2020, 1 – entry into force 12.10.2020]

4². [Repealed – RT III, 01.04.2021, 2 – entry into force 05.04.2021]

4³. [Repealed – RT III, 30.04.2021, 1 – entry into force 03.05.2021]

4⁴. [Repealed – RT III, 13.01.2021, 5 – entry into force 15.01.2021]

4⁵. [Repealed – RT III, 01.04.2021, 2 – entry into force 05.04.2021]

5. [Repealed – RT III, 04.09.2020, 1 – entry into force 04.09.2020]

6. [Repealed – RT III, 30.01.2021, 4 – entry into force 01.02.2021]

6¹. The 10-calendar-day requirement to remain in one's place of residence or permanent place of stay and the requirements for being tested for the coronavirus SARS-CoV-2 causing COVID-19, as referred to in this Order, are not applied if a person:

1) has suffered from COVID-19 and no more than 180 days have passed since the SARS-CoV-2 test confirming the diagnosis was carried out or since the date of confirmation of the diagnosis;

[RT III, 16.07.2021, 4- entry into force 19.07.2021]

2) has completed the vaccination series for COVID-19, has developed full protection after the last dose of vaccine and no more than one year has passed since;

3) has been given one dose of vaccine after recovering from COVID-19 and has developed full protection after the dose of vaccine and no more than one year has passed since, or, after the first dose of vaccine, has contracted COVID-19 and has recovered from COVID-19 and no more than one year has passed since the SARS-CoV-2 test confirming the diagnosis was carried out or since the date of confirmation of the diagnosis. If a person contracts COVID-19 within two weeks after the first dose of vaccine, the person will be subject to the provisions of sub-clause 1) applicable to recovered persons.

[RT III, 16.07.2021, 4- entry into force 19.07.2021]

6². The time when the full protection referred to in clause 6¹ is developed is, according to the manufacturers, 7 calendar days after the second dose of vaccine for Pfizer/BioNTech Vaccine Comirnaty, 15 calendar days after the second dose of vaccine for AstraZeneca Vaccine Vaxzevria, 14 calendar days after the second dose of vaccine for Moderna COVID-19 Vaccine, and 14 calendar days after one dose of vaccine for Janssen COVID-19 Vaccine. For other COVID-19 vaccines not mentioned in this clause, the specific manufacturer's instructions for full protection shall be followed. Full protection for recovered persons vaccinated with one dose is deemed to have been developed at the times stated in this clause.

[RT III, 29.05.2021, 2 – entry into force 01.06.2021]

6³. In addition to the bases set out in sub-clauses 1) through 3) of clause 6¹ of this Order, the requirements for testing for the coronavirus SARS-CoV-2 causing COVID-19 as provided for in this Order are not applied if the relevant person:

1) is under 12 years of age;

2) has special needs and their testing is not sensible considering other significant reasons.

[RT III, 10.06.2021, 3 – entry into force 11.06.2021]

7. Public events, sports competitions and sports and exercise events if the requirements established for the participants differ from those set out in this Order are allowed on the following conditions:

[RT III, 08.01.2021, 1 – entry into force 11.01.2021]

1) there is an overriding public or national interest in the relevant event;

2) the local authority of the location of the event has provided an opinion on the activity;

3) the Health Board has provided an opinion on the suitability of the risk management plan drawn up by the organiser of the event for preventing the spread of the coronavirus SARS-CoV-2 causing the COVID-19 disease.

8. The 10-calendar-day requirement to remain in one's place of residence or permanent place of stay and the requirements for being tested for the coronavirus SARS-CoV-2 causing COVID-19, as referred to in this Order, are not applied to persons performing at a public event referred to in clause 7 or persons directly involved in carrying out such an event or persons who participate in a sports competition or a sports event as an athlete or an athlete's team member or who are directly involved in carrying out a sports competition or a sports event. The Health Board shall establish necessary restrictions on the freedom of movement of said persons.

[RT III, 30.01.2021, 4 – entry into force 01.02.2021]

8¹. In public indoor spaces, persons may be and move around together while practising physical distancing. This restriction does not apply to families and in cases when said requirements cannot be reasonably ensured. For the purposes of this Order, public indoor space means a space that has been given to the disposal of unspecified people or that is at the disposal of unspecified people or in which unspecified people are allowed to be; among other things, public transport vehicles are also public indoor space.

8². [Repealed – RT III, 01.06.2021, 7 – entry into force 02.06.2021]

8³. Persons are required to wear a protective mask or cover their mouth and nose while in public transport vehicles referred to in clause 81. Said restriction does not apply to persons under 12 years of age and in cases when wearing a protective mask or covering one's mouth and nose is not reasonable for health reasons or for other significant reasons.

20¹⁴. As of 2 August 2021, for the purpose of preventing the spread of the coronavirus SARS-CoV-2 causing COVID-19, the following measures and restrictions shall additionally apply:

- 1) engaging in sports, training, youth work, hobby activities, hobby education and refresher training are allowed indoors if it is ensured that the number of participants is no higher than a total of 500 people and the requirements provided for in clause 8¹ are met. The availability of disinfectants and compliance with the disinfection requirements according to instructions from the Health Board shall be ensured. The restriction on the number of people provided for in this sub-clause does not apply to activities related to the military defence or internal security of the state;
- 2) engaging in sports, training, youth work, hobby activities, hobby education and refresher training are allowed outdoors if it is ensured that the number of participants is no higher than a total of 1500 people. This restriction does not apply to activities related to the military defence or internal security of the state;
- 3) outdoor sports competitions and sports and exercise events in a confined territory are allowed if it is ensured that the number of participants and spectators is no higher than a total of 1500 people;
- 4) indoor sports competitions and sports and exercise events are allowed if it is ensured that the total number of participants and spectators is no higher than 500 persons and the requirements provided for in clause 8¹ are met. The availability of disinfectants and compliance with the disinfection requirements according to instructions from the Health Board shall be ensured;
- 5) people may be and move around in indoor public saunas, spas, swimming pools and water parks if it is ensured that the total number of participants is no higher than 500 persons and the requirements provided for in clause 8¹ are met. The availability of disinfectants and compliance with the disinfection requirements according to instructions from the Health Board shall be ensured indoors. It is allowed to be and move around in outdoor public saunas, spas, swimming pools and water parks on the condition that the number of participants is no higher than a total of 1500 people. The restriction on the number of people provided for in this sub-clause does not apply to the proprietor of a place of provision of service or their representative, employees, persons involved in emergency work or persons necessary for economic servicing of the place;
- 6) indoor public meetings, public events, including conferences, theatre performances, concerts and film screenings, provision of entertainment services and people being and moving around at public indoor religious services and other public indoor religious rites are allowed if it is ensured that the total number of attendees is no higher than 500 people and the requirements provided for in clause 8¹ are met. The availability of disinfectants and compliance with the disinfection requirements according to instructions from the Health Board shall be ensured. The restriction on the number of people set out in this sub-clause does not apply to organisers or the proprietor of a place for carrying out activities or providing services or their representative, employees, contractors, artists, persons involved in emergency work or persons necessary for economic servicing of the place;
- 7) in a confined territory, outdoor public meetings, public events, including conferences, theatre performances, concerts and film screenings, provision of entertainment services and people being and moving around at public outdoor religious services and other public outdoor religious rites are allowed if it is ensured that the number of attendees is no higher than a total of 1500 people. This restriction does not apply to organisers or the proprietor of a place for carrying out activities or providing services or their representative, employees, contractors, artists, persons involved in emergency work or persons necessary for economic servicing of the place;
- 8) people may be and move around in indoor museums and exhibition facilities if it is ensured that the total number of visitors is no higher than 500 people per room and the requirements provided for in clause 8¹ are met. The availability of disinfectants and compliance with the disinfection requirements according to instructions from the Health Board shall be ensured. The restriction on the number of people set out in this sub-clause does not apply to organisers or the proprietor of a place for carrying out activities or providing services or their representative, employees, contractors, artists, persons involved in emergency work or persons necessary for economic servicing of the place;
- 9) in indoor settings, customers may be and move around in catering establishments' sales or service area, the sales area of stores and public spaces of commercial establishments and service providers' service areas if compliance with the requirements provided for in clause 8¹ is ensured. The availability of disinfectants and compliance with the disinfection requirements according to instructions from the Health Board shall be ensured. [RT III, 26.07.2021, 1 – entry into force 02.08.2021]

20¹⁵. [Repealed – RT III, 01.06.2021, 7 – entry into force 02.06.2021]

20¹⁶. An organiser of activities may carry out activities with a number of participants higher than the number of people provided for in clause 20¹⁴ if the application of other restrictions and measures provided for in clause 20¹⁴ for the relevant area and compliance with the requirements provided for in clauses 20¹⁷ through 20²⁰ are ensured. If a public event, sports competition or sports and exercise event is planned to be organised on conditions different from those provided for in clauses 20¹⁴ and 20¹⁷ through 20²⁰, clause 7 shall apply. [RT III, 22.06.2021, 6 – entry into force 23.06.2021]

20¹⁷. An organiser of activities may carry out activities in the event provided for in clause 20¹⁶ if it is ensured that no more than 6000 people attend in indoor settings and no more than 12,000 people attend in outdoor settings

per calendar day on the condition that the activities are attended by persons who have been tested by a health care provider as set out in this clause and the test results came back negative, on the following conditions:

[RT III, 22.06.2021, 6 – entry into force 28.06.2021]

1) an antigen RTD test for the coronavirus SARS-CoV-2 causing COVID-19 must be taken up to 48 hours before participation in the activities;

[RT III, 10.07.2021, 3 – entry into force 19.07.2021]

2) an RT-PCR test for the coronavirus SARS-CoV-2 causing COVID-19 must be taken up to 72 hours before participation in the activities.

[RT III, 22.06.2021, 6 – entry into force 23.06.2021]

20¹⁸. When arranging the testing provided for in clause 20¹⁷, an organiser of activities shall ensure compliance with the requirements provided for in clause 8¹ and the availability of disinfectants and compliance with the disinfection requirements according to instructions from the Health Board.

[RT III, 22.06.2021, 6 – entry into force 23.06.2021]

20¹⁹. The following persons are released from the testing provided for in clause 20¹⁷:

1) persons under 12 years of age;

2) persons with special needs if testing them is not reasonable considering other important reasons;

3) on the conditions provided for in clauses 6¹ and 6², persons who have recovered from COVID-19 or who are vaccinated or persons considered equal to vaccinated persons if they present a certificate evidencing those facts before participating in activities.

[RT III, 22.06.2021, 6 – entry into force 23.06.2021]

20²⁰. An organiser of activities is required to verify the authenticity and validity of the test or certificate provided for in clauses 20¹⁷ and 20¹⁹ and establish the identity of the person presenting the certificate or test before the person participates in activities.

[RT III, 22.06.2021, 6 – entry into force 23.06.2021]

21. Under § 44 (1) of the Communicable Diseases Prevention and Control Act, supervision over the requirements imposed by this Order is exercised by the Health Board. The Health Board may involve the Police and Border Guard Board in the supervision, adhering to the requirements and procedure for professional assistance provided for in the Administrative Co-operation Act.

22. The restrictions and measures established by this Order shall apply until the dates specified in this Order or until this Order is changed or repealed under § 53 (1) 4) and (2) 3) and § 66 (2) 1) of the Administrative Procedure Act and the need for these restrictions and measures shall be reviewed no later than after every two weeks.

[RT III, 14.05.2021, 1 – entry into force 17.05.2021]

23. This Order takes effect on 19 August 2020. Clause 2 and sub-clause 3) of clause 3 take effect on 1 September 2020.

24. [Omitted from this text.]

25. This Order shall be published on the website of the Government of the Republic and in the official gazette Riigi Teataja.

This Order is issued considering the fact that under § 2 2) of the Communicable Diseases Prevention and Control Act the COVID-19 disease caused by the coronavirus SARS-CoV-2 corresponds to the signs of a dangerous novel communicable disease because there is no effective treatment and the spread of the disease may exceed the hospital treatment capacity, and the requirements, measures and restrictions established by this Order clearly have a significant social and economic effect. The risk of the virus spreading is currently very high and therefore, in order to minimise the risk, it is proportional to restrict people's freedom of movement in the places referred to in the Order for the protection of the life and health of people and overriding public interest in order to prevent the spread of the coronavirus SARS-CoV-2 causing the COVID-19 disease.

For the protection of the life and health of people and overriding public interest, including for the protection of the continuity of the state, this Order establishes requirements, measures and restrictions that are inevitably necessary for preventing the spread of the virus. The reasons and considerations are set out in the explanatory memorandum to the Order, which will be published on the website of the Government of the Republic.

Failure to duly comply with measures for preventing the spread of the virus will prompt the application of the administrative coercive measures set out in § 28 (2) or (3) of the Law Enforcement Act. The maximum amount of penalty payment is 9600 euros. This penalty payment, which serves the purpose of enforcing the requirements, measures and restrictions imposed by this Order and preventing the spread of the virus, may be imposed repeatedly.

This Order can be appealed against by filing a challenge with the Government of the Republic pursuant to the procedure provided by the Administrative Procedure Act within 30 days as of the day the relevant person became or should have become aware of the Order. This Order can also be appealed against by filing an action with the administrative court pursuant to the procedure provided for in the Code of Administrative Court Procedure within 30 days as of the day of announcement of this Order.

Reasons for the amendments made by the Government of the Republic Order No. 270 of 30 July 2021

For the protection of the life and health of people and overriding public interest, including for the protection of the continuity of the state, this Order imposes indispensable measures and restrictions for preventing the spread of the coronavirus SARS-CoV-2 causing COVID-19.

§ 28 (1) of the Constitution of the Republic of Estonia (hereinafter the *Constitution*) provides for everyone's right to protection of his or her health. In this case the fundamental right protects different values. Firstly, the scope of protection includes people's right to protection of their health by having the state do everything in its power to stop the spread of the virus. Also covered by the scope of protection is public interest in avoiding increased spread of the virus and mass infections as well as overload of the health care system. In a situation where contact with other people poses a great risk of the virus spreading the state has an obligation to minimise the risk of infection, which also means that, for the purpose of achieving this objective, contact between people may be restricted in an appropriate manner.

The Constitution provides for rights and freedoms that the state is also required to ensure. The state may circumscribe the rights and freedoms set out in the Constitution considering the nature of the right or freedom in question and the conditions arising from the Constitution itself. For instance, under § 34 of the Constitution everyone whose presence in Estonian territory is lawful has the right to move freely in that territory and to choose freely where to reside. The right to move freely may be circumscribed in cases and pursuant to the procedure provided by law for the purpose of protecting the rights and freedoms of others and preventing the spread of a communicable disease, among others.

It is justified to apply certain restrictions for preventing the spread of the virus causing COVID-19. Setting restrictions on rights and freedoms requires a fair balance between the objective sought by the restriction and the scope and effect of the restriction. Whereas, it is important to consider how can people, in the long run, exercise their other fundamental rights, such as right to liberty of movement and to engage in enterprise, if the virus that causes COVID-19 is not contained in Estonia and health care institutions are overloaded and health workers are overworked. Proportional restrictions necessary for stopping the virus are justified by the above compelling objectives.

Under § 28 (2), (5) and (6) of the Communicable Diseases Prevention and Control Act and considering § 28 (8) thereof, the Government of the Republic may take measures for preventing communicable diseases when the application of measures and restrictions for the prevention of an epidemic spread of communicable diseases has a significant effect on society or economy. The following preconditions must be met: it is an extremely dangerous communicable disease or a dangerous novel communicable disease; the Health Board has given the Government of the Republic information and a recommendation on a measure (obligation or restriction) on the basis of epidemiological, laboratory and clinical information; the measure is absolutely necessary for preventing the spread of the virus or in other words the requirement must be proportional and rational; the measure is temporary or in other words limited in time and it brings about a significant social or economic effect.

Restrictions on the freedom of movement and various measures for preventing and stopping the spread of the coronavirus SARS-CoV-2 causing COVID-19 have been established by the Government of the Republic Order No. 282 "Measures and restrictions necessary for preventing the spread of COVID-19" of 19 August 2020 (hereinafter *Order No. 282*), which serve the purpose of reducing contact between people and preventing the spread of the virus.

Establishment of the restrictions by the Order is based on the fact that COVID-19 caused by SARS-CoV-2 is an infectious disease that spreads from one person to another by way of droplet infection, primarily upon close contact with an infectious person. The virus can be contracted when in close contact with an infected person, by inhaling particles of the virus¹, or through contaminated surfaces or, for example, contaminated hands.

The virus can spread in poorly ventilated and/or crowded indoor settings, where people tend to spend longer periods of time. The risk of becoming infected with SARS-CoV-2 is also present outdoors where close contact with a lot of people takes place. In Estonia, such cases have taken place, for instance, at sports events which resulted in 16 infected persons (as per 26 July 2021) and entertainment events which resulted in 64 infected persons (as per 26 July 2021).

The spread of the Delta variant of the coronavirus SARS-CoV-2 has brought about a significant increase in the spread of the virus in Estonia in recent weeks. The Delta variant spreads 60% more effectively than the Alpha variant, this means easier secondary and tertiary transmissions and the latent period is also shorter. Current data has shown that the level of immunity developed after a single dose of vaccine (for 2-dose vaccines) is about 17% less effective against the Delta variant compared to the Alpha variant dominant thus far². However, in respect to immunity developed after completion of the vaccination series the efficiency of the vaccine is about 10% lower. There has been no noticeable reduction of responsiveness as to immunity developed after completion of the vaccination series. Considering that as per 29 July 2021 41.85% of the population have completed their

vaccination series, the effect of vaccination is not yet sufficient to prevent possible increased morbidity caused by the Delta variant. This makes it necessary to impose additional restrictions and measures.

This Order has been drawn up considering the fact that the intensity of morbidity is high throughout Estonia. On 29 July 2021, the ratio of positive tests from the last 14 days to 100,000 inhabitants was 107.83 and the average rate of positive tests from the last 7 days was 133.

On 23 July 2021, the ratio of positive tests from the last 14 days to 100,000 inhabitants was 65.46 and the average rate of positive tests from the last 7 days was 75. On 7 July 2021 said figures were 31.83 and 32; on 21 June 2021 49.81 and 40; and on 16 June 2021 64.11 and 49.

14-day morbidity per 100,000 population is high in Estonia and the growth rate of new cases is still on the rise. Figures concerning hospital capacity and the health care system are moderate and stable.

During week 29, 645 new cases were registered. Compared to the week before, the number of new cases was 72.0% higher. During week 29, 18,494 tests were analysed (1394 tests per 100,000 inhabitants), which is 33.1% less than in week 28. 3.5% of the tests came back positive (1.4% in week 28). As of week 26 the Delta variant has assumed the position of the dominant variant (33% in week 25, 67% in week 26, 92% in week 28 and 95% in week 29).

On 27 July 2021, the infection coefficient R was 1.4 across Estonia, which is on the rise. The infection coefficient R rising is related to the dominance of the Delta variant but also to the organisation of large events. Different events have resulted in 9 clusters which include 166 infected persons as per 26 July 2021. Each day reveals new infected persons in the clusters. Persons who attend events and also camps are usually from different parts of Estonia, thus spreading the disease. Considering that R is high, the Health Board anticipates that there will be nearly 200 secondary cases related to events alone in week 30. The Health Board finds that if the number of people allowed to attend events is not limited, there will be up to 2500 new infected persons a day in the middle of September.
