Chapter 1 GENERAL PROVISIONS

§ 1. Scope of application of Act

(1) This Act provides the requirements for tobacco products and their packaging and products related to tobacco products, special requirements for the handling of tobacco products and products related to tobacco products, restriction on sponsorship and ban on the promotion of tobacco products, prohibition of and restriction on the consumption of tobacco products and products related to tobacco products and supervision over compliance with this Act and liability for violation of this Act. The primary objective of this Act is to ensure the protection of human health.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

(2) The sales packaging of tobacco products and products related to tobacco products shall be revenue stamped if prescribed by the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act.

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

(3) In this Act, the terms “territory of the European Union”, “Member State” and “third country” shall have the meanings provided for in § 1¹ of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act.

[RT I, 12.03.2015, 7 – entry into force 22.03.2015]

(4) The requirements provided for in this Act regarding tobacco products and their packaging shall not apply:

1) in the case specified in clause 27 (1) 1¹ of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act;
[RT I 2008, 49, 272 – entry into force 01.01.2009]

2) to tobacco products which a traveller who is at least 18 years of age brings into Estonia for non-commercial purposes inside the baggage with which he or she is travelling;

[RT I 2008, 49, 272 – entry into force 01.01.2009]

3) to tobacco products which are sent by a natural person living in a foreign state to a natural person in Estonia who is at least 18 years of age for non-commercial purposes or which a natural person sends to a foreign state for non-commercial purposes;

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

4) upon retail sale of tobacco products on board a ship or an aircraft during a passenger service outside of the Community.

(5) The requirements provided for in this Act regarding the packaging of tobacco products shall not apply:

1) upon retail sale of tobacco products on board a ship or an aircraft during an intra-Community passenger service;

2) [Repealed – RT I, 19.05.2020, 1 – entry into force 29.05.2020]

3) [Repealed – RT I, 09.01.2018, 1 – entry into force 19.01.2018]

4) to tobacco products which are produced or stored in an excise warehouse for the purpose of their transfer into a foreign state.

(5¹) The requirements provided for in this Act regarding electronic cigarettes and refill containers shall not apply to products with regard to which the licence obligation provided for in the Medicinal Products Act or the requirements provided for in the Medical Devices Act and Regulation (EU) 2017/745 of the European Parliament and of the Council on medical devices, amending Directive 2001/83/EC, Regulation (EC) No 178/2002 and Regulation (EC) No 1223/2009 and repealing Council Directives 90/385/EEC and 93/42/EEC (OJ L 117, 5.5.2017, p. 1–175) apply.

[RT I, 17.05.2020, 1 – entry into force 26.05.2021]

(5²) Clauses (4) 2)–4) and clauses (5) 1) and 4) of this section shall also apply to products related to tobacco products.

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

(6) The Administrative Procedure Act applies to administrative proceedings prescribed in this Act, taking account of the specifications provided for in this Act.

§ 2. Tobacco

Tobacco is a plant from the genus *Nicotiana*.

§ 3. Tobacco product

(1) “Tobacco products” mean products for the purposes of smoking, chewing, sucking or sniffing, inasmuch as they are, even partly, made of tobacco.

(2) Tobacco products are classified as smoking and smokeless tobacco products.

(3) The types of smoking tobacco products are a cigarette, a cigar, a cigarillo and smoking tobacco for the purposes of subsections 16 (2)–(4¹) of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act.
[RT I, 12.03.2015, 7 – entry into force 22.03.2015]

(4) “Smokeless tobacco product” means a tobacco product not involving a combustion process, including chewing tobacco, nasal tobacco and tobacco for oral use.
[RT I, 12.03.2015, 7 – entry into force 01.05.2015]

(5) “Novel tobacco products” mean tobacco products which are not cigarettes, roll-your-own tobacco, pipe tobacco, waterpipe tobacco, cigars, cigarillos, chewing tobacco, nasal tobacco or tobacco for oral use and which are placed on the market after 19 May 2014.
[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

§ 3¹. Products related to tobacco products

(1) “Products related to tobacco products” are:

1) products used similarly to tobacco products which imitate consumption of tobacco products and products used to replace tobacco products, including electronic cigarette, herbal products for smoking, different materials to replace waterpipe tobacco and tobacco-free snus, regardless of the nicotine yield of such products;

1¹) alternative tobacco products for the purposes of subsection 16 (8) of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act that are not specified in clause 1) of this subsection;
[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

2) products directly intended for consumption of tobacco products, including waterpipes and pipes, components and accessories thereof, cigarette papers, cigarette-paper tubes and filling devices thereof, filters belonging to tobacco products and connected thereto, filtering pipe sockets and filter cartridges, cigar and cigarette holders and goods equivalent thereto and components thereof and other products.

(2) “Electronic cigarette” means a product that can be used for consumption of nicotine-containing vapour via a mouthpiece, or any component of that product, including a cartridge, a tank and the device without cartridge or tank. Electronic cigarettes can be disposable or refillable by means of a refill container and a tank, or rechargeable with single use cartridges.

(3) “Herbal product for smoking” means a product based on plants, herbs or fruits which contains no tobacco and that can be consumed via a combustion process.
[RT I, 12.03.2015, 7 – entry into force 22.03.2015]

§ 4. Packaging

(1) “Sales packaging of tobacco products” means packaging for the purposes of clause 3 (1) 1) of the Packaging Act.
[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

(2) “Grouped packaging of tobacco products” means packaging for the purposes of clause 3 (1) 2) of the Packaging Act.

§ 5. Brand

For the purposes of this Act, “brand” means a name assigned to a tobacco product with or without an extension characterising the tobacco product or its sales packaging.

§ 6. Handling

(1) “Handling of tobacco products or products related to tobacco products” means:

1) the manufacture, processing or packaging of tobacco products or related products (hereinafter *manufacture of tobacco products or products related to tobacco products*);

2) trading in tobacco products or related products;

3) the possessing, storage or distribution of tobacco products or related products for commercial purposes or in a commercial quantity.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

(2) The quantitative limits specified in clause 31¹(1) 1) for smokeless tobacco products and the quantitative limits specified in § 57¹ of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act for other products shall apply upon determination of a quantity of tobacco products and alternative tobacco products within the meaning of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act possessed by a person as a commercial quantity. [RT I, 27.06.2018, 2 – entry into force 01.07.2018]

(2¹) A quantity of smoking tobacco products or alternative tobacco products within the meaning of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act which is not permitted to be handled is deemed to be large if the excise duty calculated on the quantity of such tobacco products exceeds one hundred times the amount of excise duty specified in subsection 56 (1¹) of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act. [RT I, 16.06.2017, 73 – entry into force 01.01.2018]

(2²) A quantity of smokeless tobacco products which is not permitted to be handled is deemed to be large if the quantity of such tobacco products exceeds 15 kilograms. [RT I, 16.06.2017, 73 – entry into force 01.01.2018]

(3) “Trading in tobacco products or products related to tobacco products” is:

1) offer for sale and sale of tobacco products or related products on a wholesale basis (hereinafter *wholesale trade in tobacco products or products related to tobacco products*);

2) offer for sale and sale of tobacco products or related products on a retail basis (hereinafter *retail trade in tobacco products or products related to tobacco products*);

3) distance sale of tobacco products or related products to consumers where, at the time the consumer orders the product from a retail outlet, the consumer is located in Estonia and the retail outlet is established in another Member State or a third country (hereinafter *cross-border distance sale*).

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

4) offer for sale and sale of tobacco products or products related to tobacco products for the purposes of subsection 52 (1) of the Law of Obligations Act and in the way provided for in subsection (2) (hereinafter *domestic distance sale*).

[RT I, 09.01.2018, 1 – entry into force 01.07.2019]

(3¹) A retail outlet specified in clause (3) 3) of this section is deemed to be established in a Member State if, in the case of a natural person, he or she has his or her place of business in that Member State or, in other cases, if the retail outlet has its statutory seat, central administration or place of business, including a branch, agency or any other establishment, in that Member State.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

(3²) The distant sale by a retail outlet that is located in Estonia to a consumer who is established in another Member State or a third country shall also be considered cross-border distance sale provided for in clause (3) 3) of this section.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

(4) If an undertaking offers use of a pipe in which smoke goes through liquid (hereinafter *waterpipe*) for the consumption of the corresponding smoking tobacco (hereinafter *waterpipe tobacco*), it is deemed to be a service related to retail trade in tobacco products to which the provisions concerning retail trade in tobacco products apply.

§ 7. Smoking

For the purposes of this Act, “smoking” means the use of a cigarette, cigar, cigarillo, smoking tobacco or herbal product for smoking for its intended use regardless of whether any and which means are used therefore.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

§ 7¹. Competent state authority

Unless otherwise provided, the Health Board shall perform the acts and issue the administrative acts provided for in this Act.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

Chapter 2 HANDLING OF TOBACCO PRODUCTS AND PRODUCTS RELATED TO TOBACCO PRODUCTS

[RT I, 28.06.2016, 3 - entry into force 08.07.2016]

Subchapter 1

Requirements for Tobacco Products and Products related to Tobacco Products

[RT I, 28.06.2016, 3 - entry into force 08.07.2016]

§ 8. Requirements for ingredients of tobacco products

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(1) The tar yield of cigarettes is the yield of raw anhydrous nicotine-free condensate of smoke which shall not exceed 10 mg per cigarette.

(2) The nicotine yield of cigarettes is the yield of nicotinic alkaloids which shall not exceed 1 mg per cigarette.

(3) The carbon monoxide yield of cigarettes is the yield of carbon monoxide upon burning which shall not exceed 10 mg per cigarette.

(4) Tobacco products shall not contain the following additives:

- 1) vitamins or other additives that create the impression that a tobacco product has a health benefit or presents reduced health risks;
- 2) caffeine, taurine or other additives and stimulant compounds that are associated with energy and vitality;
- 3) additives having colouring properties for emissions;
- 4) additives that facilitate inhalation or nicotine uptake;
- 5) additives that have CMR properties in unburnt form.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(5) Cigarettes and roll-your-own tobacco shall not have a characterising flavour. “Characterising flavour” means a clearly noticeable taste or smell other than one of tobacco, resulting from an additive or a combination of additives which is noticeable before or during the consumption of the tobacco product.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(6) The components of cigarettes and roll-your-own tobacco such as filters, papers, packagings and capsules shall not contain flavourings. It is prohibited to use any technical features allowing modification of the taste or smell of tobacco products or their smoke intensity.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(7) Filters, papers and capsules used with cigarettes and roll-your-own tobacco shall not contain tobacco or nicotine.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(8) Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, (OJ L 136, 29.05.2007, pp. 3–280) is applied to tobacco products.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(9) Commission Implementing Regulation (EU) 2016/779, laying down uniform rules as regards the procedures for determining whether a tobacco product has a characterising flavour (OJ L 131, 20.05.2016, pp. 48–54) shall be applied upon determining whether a tobacco product has a characterising flavour.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

§ 8¹. Requirements for ingredients of electronic cigarettes

(1) The nicotine-containing liquid shall not contain nicotine in excess of 20 mg/ml.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

(2) The nicotine-containing and nicotine-free liquid shall not contain the following substances:

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

- 1) vitamins or other additives that create the impression that a product has a health benefit or presents reduced health risks;
- 2) caffeine, taurine or other additives and stimulant compounds that are associated with energy and vitality;
- 3) additives having colouring properties for emissions;
- 4) substances that pose a risk to human health in heated or unheated form, except for nicotine;

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

- 5) flavourings, except for the taste and smell of tobacco and menthol.

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

(3) Only ingredients of high purity are used in the manufacture of the nicotine-containing and nicotine-free liquid of electronic cigarettes. Substances other than the ingredients listed on the packaging are only present in the liquid in trace levels, if such traces are technically unavoidable during manufacture.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

§ 8². Requirements for electronic cigarettes

(1) Electronic cigarettes shall deliver the nicotine doses at consistent levels under conditions of use prescribed by the manufacturer.

(2) Electronic cigarettes and refill containers shall be child- and tamperproof, protected against breakage and leakage and have a mechanism that ensures refilling without leakage.

(3) Electronic cigarettes and refill containers shall comply with the requirements provided for in European Commission Implementing Decision (EU) 2016/586 on technical standards for the refill mechanism of electronic cigarettes (OJ L 101, 14.04.2016, pp. 15–16).

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

§ 9. Verification of yield of cigarettes

The requirements and procedure for laboratory tests regarding the tar, nicotine and carbon monoxide yields of cigarettes shall be established by minister responsible for the area.

§ 10. Notification of ingredients of tobacco products

(1) An undertaking importing tobacco products into Estonia for transfer or an undertaking manufacturing tobacco products in Estonia shall submit to the Health Board prior to the placing on the market of a new or modified tobacco product an electronic report by brand name and type. The report shall be submitted in accordance with the format provided for in European Commission Implementing Decision (EU) 2015/2186 establishing a format for the submission and making available of information on tobacco products (OJ L 312, 27.11.2015, pp. 5–18) which shall contain:

- 1) a list of all ingredients, and quantities thereof, used in the manufacture of the tobacco products, in descending order of the weight of each ingredient included in the tobacco products, accompanied by a statement setting out the reasons for the inclusion of such ingredients in the tobacco products and information on whether the ingredients have been registered under the REACH Regulation and classification of the ingredients under Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (OJ L 353, 31.12.2008, pp. 1–1355);
- 2) tar, nicotine and carbon monoxide emission levels;
- 3) where available, information on other emissions and their levels and the measurement methods used.

(2) The report specified in subsection (1) of this section shall also be accompanied by the toxicological data available to the undertaking importing tobacco products into Estonia for transfer or the undertaking manufacturing tobacco products in Estonia regarding the ingredients used in tobacco products in burnt or unburnt form as appropriate, referring in particular to their effects on health and taking into account their addictiveness and toxicity. The Health Board may require the specified undertaking to carry out relevant studies.

(3) In the case of cigarettes and smoking tobacco, an undertaking importing tobacco products into Estonia for transfer or an undertaking manufacturing tobacco products in Estonia shall submit in addition to the information specified in clause (1) 1) of this section a technical document setting out a general description of the additives used and their properties.

(4) The information submitted on the basis of subsections (1)–(3) of this section shall be published on the website of the Health Board. Upon publication of the information, except in the case of information concerning the tar, nicotine and carbon monoxide yields of tobacco products, account shall be taken of the need to protect business secrets relating to the ingredients of tobacco products.

(5) Undertakings importing tobacco products into Estonia for transfer or undertakings manufacturing tobacco products in Estonia shall submit to the Health Board internal and external studies available to them on market research and preferences of various consumer groups, including young people and current smokers, relating to ingredients and emissions, as well as executive summaries of any market surveys they carry out when launching new products.

(6) Undertakings importing tobacco products into Estonia for transfer or undertakings manufacturing tobacco products in Estonia shall submit to the Health Board their sales volumes per brand and type.

(7) In addition to the report specified in subsection (1) of this section, additional studies must be carried out with regard to some of the additives contained in cigarettes and smoking tobacco and which have been added in the priority list (hereinafter *priority list*) established with Commission Implementing Decision (EU) 2016/787, laying down a priority list of additives contained in cigarettes and roll-your-own tobacco subject to enhanced

reporting obligations (OJ L 131, 20.05.2016, pp. 88–90); such studies shall examine for each additive whether it:

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

- 1) contributes to the toxicity or addictiveness of the products concerned, and whether this has the effect of increasing the toxicity or addictiveness of any of the products concerned to a significant or measurable degree;
- 2) results in a characterising flavour;
- 3) facilitates inhalation or nicotine uptake;
- 4) leads to the formation of substances that have CMR properties, the quantities thereof, and whether this has the effect of increasing the CMR properties in any of the products concerned to a significant or measurable degree.

(8) The studies specified in subsection (7) of this section shall take into account the intended use of the products concerned and examine in particular the emissions resulting from the combustion process involving the additive concerned. The studies shall also examine the interaction of that additive with other ingredients contained in the products concerned. Undertakings importing tobacco products into Estonia for transfer or undertakings manufacturing tobacco products in Estonia who are using the same additive in their tobacco products may carry out a joint study when using that additive in a comparable product composition.

(9) Undertakings importing tobacco products into Estonia for transfer or undertakings manufacturing tobacco products in Estonia shall prepare a report on the results of the studies specified in subsection (7) of this section including an executive summary, and a comprehensive overview compiling the available scientific literature on that additive and summarising internal data on the effects of the additive and shall submit the report to the European Commission and the Health Board at the latest 18 months after the additive concerned has been included in the priority list prepared by the European Commission. In addition to the submitted report, the Health Board may request supplementary information regarding the additive concerned.

(10) The Health Board may require the report specified in subsection (9) of this section to be peer reviewed by an independent scientific body, in particular as regards its comprehensiveness, methodology and conclusions.

(11) Enterprises as defined in European Commission Recommendation 2003/361/EC concerning the definition of micro, small and medium-sized enterprises (OJ L 124, 20.05.2003, pp. 36–41) shall be exempted from the carrying out of the studies specified in subsection (7) of this section if a report on that additive is prepared by another undertaking importing tobacco products into Estonia for transfer or another undertaking manufacturing tobacco products in Estonia.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

§ 10¹. Notification of novel tobacco products

(1) Undertakings importing tobacco products into Estonia for transfer or undertakings manufacturing tobacco products in Estonia shall submit to the Health Board a notification in electronic form six months before the intended placing on the market of a novel tobacco product which shall include the following information:

- 1) a detailed description of the novel tobacco product and instructions for its use and the information on ingredients and emissions required in § 10 of this Act;
- 2) available scientific studies on toxicity, addictiveness and attractiveness of the novel tobacco product, in particular as regards its ingredients and emissions;
- 3) available studies, executive summaries thereof and market research on the preferences of various consumer groups, including young people and current smokers;
- 4) other available and relevant information, including a risk/benefit analysis of the product, its expected effects on initiation of tobacco consumption, its expected effects on cessation of tobacco consumption and predicted consumer perception.

(2) The Health Board may require the undertakings importing tobacco products into Estonia for transfer or undertakings manufacturing tobacco products in Estonia to carry out additional tests or submit additional information.

(3) The Health Board shall make the information submitted on novel tobacco products available to the European Commission.

(4) All novel tobacco products to be placed on the market shall comply with the requirements established for tobacco products by this Act.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

§ 10². Notification of ingredients of electronic cigarettes and refill containers

(1) Undertakings importing electronic cigarettes or refill containers or electronic cigarettes and refill containers into Estonia for transfer or undertakings manufacturing these in Estonia shall submit to the Health Board a report in electronic form six months before the intended placing on the market of a product or for each

substantial modification of the product. The report shall be submitted in accordance with the format provided for in European Commission Implementing Decision (EU) 2015/2183 establishing a common format for the notification of electronic cigarettes and refill containers (OJ L 309, 26.11.2015, pp. 15–27) which shall, depending on whether the product is an electronic cigarette or a refill container, contain the following information:

- 1) the name and contact details of the manufacturer, a responsible legal or natural person within the European Union, and, if applicable, the importer into the European Union;
- 2) a list of all ingredients contained in, and emissions resulting from the use of, the product, by brand name and type, including quantities thereof;
- 3) toxicological data regarding the product's ingredients and emissions, including when heated, referring in particular to their effects on the health of consumers when inhaled and taking into account, inter alia, any addictive effect;
- 4) information on the nicotine doses and uptake when consumed under conditions prescribed by the manufacturer;
- 5) a description of the components of the product, including, where applicable, the opening and refill mechanism of the electronic cigarette or refill containers;
- 6) a description of the production process, including whether it involves series production, and a declaration that the production process ensures conformity with the requirements established by this Act;
- 7) a declaration that the undertaking importing these products into Estonia for transfer and the undertaking manufacturing tobacco products in Estonia bear full responsibility for the quality and safety of the product, when used under conditions prescribed by the manufacturer.

(2) Undertakings importing electronic cigarettes or refill containers or electronic cigarettes and refill containers into Estonia for transfer or undertakings manufacturing these in Estonia are required to submit annually to the Health Board the following information:

- 1) data on sales volumes, by brand name and type of the product;
- 2) information on the product preferences of various consumer groups, including young people, non-smokers and current users;
- 3) the mode of sale of the products concerned;
- 4) executive summaries of any market surveys carried out in respect of the above, including an English translation thereof.

(3) Undertakings importing electronic cigarettes or refill containers or electronic cigarettes and refill containers into Estonia for transfer or undertakings manufacturing these in Estonia are required to establish and maintain a system for collecting information about all of the suspected adverse effects on human health of these products.

(4) If an undertaking importing electronic cigarettes or refill containers or electronic cigarettes and refill containers into Estonia for transfer or an undertaking manufacturing these in Estonia considers or has reason to believe that electronic cigarettes or refill containers or both, which are in its possession and are placed on the market or are intended to be placed on the market, are not safe or are not of good quality or are otherwise not in conformity with this Act, that undertaking shall immediately take the corrective action necessary to bring the product concerned into conformity with this Act, to withdraw or to recall it, as appropriate. In such case the undertaking shall also be required to immediately inform the market surveillance authorities of other Member States in which the product is made available or is intended to be made available, giving details, in particular, of the risk to human health and safety and of any corrective action taken, and of the results of such corrective action.

(5) The Health Board may also request additional information from the undertaking, for example on the safety and quality aspects or any adverse effects of electronic cigarettes or refill containers or both.

(6) If the Health Board ascertains or has reasonable grounds to believe that specific electronic cigarettes or refill containers or both, or a type of electronic cigarette or refill container or both, could present a serious risk to human health, it may take appropriate provisional measures and shall immediately inform the European Commission and the competent authorities of other Member States thereof. The European Commission shall determine, after having received that information, whether the provisional measure is justified and shall inform the Health Board to enable it to take appropriate follow-up measures, if necessary.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

(7) The information submitted on the basis of subsection (1) of this section shall be published on the website of the Health Board. The need to protect trade secrets related to the composition of products shall be taken duly into account when making that information publicly available.

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

§ 10³. Notification of ingredients of herbal products for smoking

(1) Undertakings importing herbal products for smoking into Estonia for transfer or undertakings manufacturing herbal products for smoking in Estonia shall submit to the Health Board a notification in electronic form concerning the ingredients, and quantities thereof that are used in the manufacture of such products by brand name and type.

(2) If the composition of a product is modified, the information specified in subsection (1) of this section shall be submitted to the Health Board prior to the placing on the market of the product.

[RT I, 28.06.2016, 3 – entry into force 08.07.2016]

(3) The information submitted on the basis of subsections (1) and (2) of this section shall be published on the website of the Health Board. The need to protect trade secrets related to the composition of products shall be taken duly into account when making that information publicly available.

Subchapter 2

Requirements for Packaging of Tobacco Products

§ 11. General requirements for packaging of tobacco products

(1) The shape and labelling of the packaging of tobacco products shall not mislead the consumer with regard to the contents of the packaging or resemble that of a food or a cosmetic product.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(2) The labelling of the packaging of tobacco products shall not include information or use any text or image that:

- 1) promotes a tobacco product or encourages its consumption by creating an erroneous impression about its characteristics, health effects, risks or emissions;
- 2) includes information about the nicotine, tar or carbon monoxide content of the tobacco product;
- 3) misleadingly suggests that a particular tobacco product is less harmful than others or aims to reduce the effect of some harmful components of smoke or has vitalising, energetic, healing, rejuvenating, natural, organic properties or has other health or lifestyle benefits;
- 4) refers to taste, smell, any flavourings or other additives or the absence thereof;
- 5) suggests that a certain tobacco product has improved biodegradability or other environmental advantages;
- 6) suggests economic advantages;
- 7) includes printed vouchers, offering discounts, free distribution, two-for-one or other similar offers.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(3) The manufacturer's lot code shall be visible on the packaging of tobacco products without opening the packaging and shall be clearly distinguishable given ordinary attention.

(4) It is prohibited to print the labelling on a transparent wrapper used for the packaging of tobacco products.

(5) The sales packaging of cigarettes shall have a cuboid shape. The sales packaging of smoking tobacco shall have a cuboid or cylindrical shape, or the form of a pouch.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(6) The sales packaging of cigarettes may consist of carton or soft material. The sales packaging shall not have an opening that can be re-closed or re-sealed after it is first opened, other than the flip-top lid and shoulder box with a hinged lid. For packaging with a flip-top lid and hinged lid, the lid shall be hinged only at the back of the sales packaging.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(7) The requirements provided for in clauses (2) 1)-7) of this Act shall also apply to publications added inside the packaging of tobacco products.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

§ 12. Labelling of packaging of tobacco products

(1) The following shall be printed on the sales packaging and grouped packaging of tobacco products:

- 1) health warnings;

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

- 2) the type, brand and number of pieces or quantity in grams of the tobacco products;

- 3) [Repealed – RT I, 08.03.2016, 1 – entry into force 20.05.2016]

- 4) absence of a filter in the case of unfiltered cigarettes if absence of a filter is not reflected in the brand;

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

- 5) the manufacturer's lot code.

(2) [Repealed – RT I, 08.03.2016, 1 – entry into force 20.05.2016]

(2¹) A unique tracking and tracing identifier (hereinafter *unique identifier*) shall be printed on the surface of the sales packaging of tobacco products which allows to identify and record the movement of tobacco products in the European Union. The manufacturer's lot code need not be additionally printed on a sales packaging carrying a unique identifier.

[RT I, 19.05.2020, 1 – entry into force 20.05.2020]

(2²) A tamper proof security feature composed of at least five types of authentication elements of which at least one is overt, one is semi-covert and one is covert (hereinafter *security feature*) shall be placed on the sales packaging of tobacco products.

[RT I, 19.05.2020, 1 – entry into force 20.05.2020]

(3) Subsection (1) of this section does not apply to the grouped packaging of cigarettes if it is only a transparent wrapper.

(4) In the case of several grouped packagings of tobacco products, subsection (1) of this section only applies to the grouped packaging directly covering the sales packaging.

(5) Information specified in subsection (1) of this section may be affixed on the sales packaging and grouped packaging of tobacco products, except for cigarettes and roll-your-own tobacco, by means of stickers. Use of stickers is mandatory if the grouped packaging of the aforementioned tobacco products is only a transparent wrapper. Stickers shall be affixed in a manner that prevents their removal without damaging the packaging. Texts on stickers shall be durable.

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

§ 13. Health warnings regarding smoking tobacco products

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

(1) Health warnings regarding smoking tobacco products are divided into general health warnings, health information messages and combined health warnings.

[RT I, 08.03.2016, 1 – entry into force 20.05.2016]

§ 14. Health warning regarding smokeless tobacco products

[Repealed – RT I, 12.03.2015, 7 – entry into force 01.01.2016]

§ 14¹. Health warning regarding novel smokeless tobacco products

(1) The following health warning shall appear on each sales packaging and each grouped packaging of novel smokeless tobacco products:
“See tubakatoode kahjustab sinu tervist ja tekitab sõltuvust.” [This tobacco product damages your health and is addictive.]

(2) The health warning provided for in subsection (1) of this section shall:

- 1) comply with the conditions provided for in subsections 16 (6) and (10)–(12) of this Act;
- 2) appear on two of the largest surfaces of the sales packaging and the grouped packaging;
- 3) appear parallel to the lateral edge of the cuboid packaging below the main text;
- 4) cover 30% of the relevant surface of the sales packaging and the grouped packaging.

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

§ 15. Information concerning tar, nicotine and carbon monoxide yields of cigarettes

[Repealed – RT I, 08.03.2016, 1 – entry into force 20.05.2016]

§ 16. Position of health warnings regarding smoking tobacco products

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

(1) The combined health warning shall appear on the sales packaging of cigarettes and smoking tobacco and the grouped packaging directly covering the sales packaging at the top edge on the most visible surface and the other most visible surface parallel to the top edge of the packaging in the same direction as any other information appearing on that surface.

[RT I, 08.03.2016, 1 – entry into force 20.05.2019]

(2) The combined health warnings shall cover 65 per cent of the corresponding external surface of the packaging. Cylindrical packaging shall display two combined health warnings, equidistant from each other, each covering 65 per cent of their respective half of the curved surface.

(3) The minimum dimensions of combined health warnings in the case of the sales packaging of cigarettes are the following:

- 1) height not less than 44 mm;
- 2) width not less than 52 mm.

(4) The general health warning and the health information message shall appear on the bottom part of the lateral surface of the sales packaging of cigarettes and smoking tobacco and the grouped packaging directly covering the sales packaging, and it shall cover 50 per cent of the lateral surface. The specified health warnings shall have a width of not less than 20 mm.

(5) For packaging in the form of a shoulder box with a hinged lid that result in the lateral surfaces being split into two when the packaging is open, the general health warning and the health information message shall appear in their entirety on the larger parts of those split surfaces or on the inside of the top surface that is visible when the packaging is open. The lateral surfaces of this type of packaging shall have a height of not less than 16 mm.

(6) For packaging in the form of a pouch, the general health warning and the health information message shall appear on the surface such that the full visibility of the health warnings is ensured.

(7) For cylindrical packaging, the general health warning shall appear on the outside surface of the lid and the health information message on the inside surface of the lid.

(8) The general health warning which appears on the most visible surface of the sales packaging of cigars and cigarillos and the grouped packaging directly covering the sales packaging shall cover 30 per cent of the respective outside surface of the packaging and the text warning which appears on the other most visible surface shall cover 40 per cent of the respective outside surface of the packaging.

(9) If the most visible surface of the sales packaging of cigars and cigarillos or the grouped packaging directly covering the sales packaging exceeds 150 cm², the general health warning or the text warning shall cover 45 cm² of the surface.

(10) The general health warning, the health information message and the combined health warnings shall be positioned such that the opening of the packaging does not make the text illegible, incomprehensible or distorted and the text is not hidden or interrupted by tax stamps, unique identifiers, price marks, security features, wrappers, jackets, boxes, or other items.

[RT I, 19.05.2020, 1 – entry into force 29.05.2020]

(11) The general health warning and the health information message shall be printed:

- 1) centred on the white background;
- 2) in black;
- 3) in Helvetica bold type;
- 4) using the point size of the font which is such as to occupy the greatest possible proportion of the white background set aside for the text required.

(12) The general health warning, the health information message and the combined health warnings shall be surrounded by a black border of a width of 1 mm inside the surface area that is reserved for these warnings, except for the general health warnings and text warnings of cigars and cigarillos, in the case of which the white background is surrounded by a black border of a width of not less than 3 mm and not more than 4 mm. The border is not included in the white background and it shall in no way interfere with the text of the warning or information given on the white background.

(13) The layout, shape and design of combined health warnings shall comply with the requirements for various product packaging concerning their shape, technical specifications and other features, the European Union law, and implementing acts such as Commission Implementing Decision (EU) 2015/1842 on the technical specifications for the layout, design and shape of the combined health warnings for tobacco products for smoking (OJ L 267, 14.10.2015, pp. 5–10) and Commission Implementing Decision (EU) 2015/1735 on the precise position of the general warning and the information message on roll-your-own tobacco marketed in pouches (OJ L 252, 29.09.2015, pp. 49–55).

(1) The security feature shall be irremovably printed or affixed on the sales packaging of tobacco products, indelible and not hidden or interrupted in any form, including through tax stamps or price marks, or other elements.

(2) The security feature shall be placed on the sales packaging of tobacco products in a manner which allows to identify the individual sales packaging of tobacco products and verify the authenticity thereof during the entire time tobacco products are placed on the market, and protect them from being replaced, reused or modified.

(3) The security feature of tobacco products placed on the market in Estonia shall be the revenue stamp established on the basis of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act.

(4) The manufacturer or importer of tobacco products shall organise the printing and application of the security feature (hereinafter *security feature of manufacturer or importer*) on tobacco products if the tobacco products are not revenue stamped on the basis of the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act.

(5) At least one of the authentication elements in a security feature shall be provided by an independent authentication element provider.

(6) The requirements for the independence of authentication element providers shall be established by a regulation of the minister responsible for the area in compliance with Commission Implementing Decision (EU) 2018/576 on technical standards for security features applied to tobacco products (OJ L 96, 16.04.2018, pp. 57–63).

(7) The manufacturers and importers of tobacco products shall submit to the Tax and Customs Board the combination of authentication elements they wish to use in the security feature of the manufacturer or importer at least 30 calendar days before the intended use or modification of the security feature. If the Tax and Customs Board does not notify the manufacturer or importer within five working days after the receipt of the combination of authentication elements of the security feature of the need to modify it, the combination may be taken into use in the submitted form.

(8) If the Tax and Customs Board has reasons to believe that the integrity of a security feature in use on the market is compromised, it shall inform the manufacturers and importers and security feature providers concerned within five working days thereof. The Tax and Customs Board may require that the security feature concerned be replaced or modified.

(9) Requirements for the security features of tobacco products and the conditions and procedure for the notification of the introduction of security features of manufacturers or importers shall be established by a regulation of the minister responsible for the area.

§ 33. Specific state supervision measures

[RT I, 13.03.2014, 4 – entry into force 01.07.2014]

(1) Law enforcement authorities may apply the special state supervision measures provided for in §§ 30, 31, 32, 44, 49, 50, 51 and 52 of the Law Enforcement Act for exercising the state supervision provided for in this Act on the basis of and pursuant to the procedure provided by the Law Enforcement Act.

[RT I, 12.03.2015, 7 – entry into force 22.03.2015]

(2) In order to exercise state supervision, the Tax and Customs Board may, in addition to the special measures specified in subsection (1) of this section, apply the specific measure provided for in § 45 of the Law Enforcement Act on the basis of and pursuant to the procedure provided for in the Law Enforcement Act.

(3) In order to exercise state supervision, police officers may, in addition to the special measures specified in subsection (1) of this section, apply the specific measures provided for in §§ 47 and 48 of the Law Enforcement Act on the basis of and pursuant to the procedure provided for in the Law Enforcement Act.

[RT I, 13.03.2014, 4 – entry into force 01.07.2014]

(4) In exercising state supervision, the Tax and Customs Board may apply direct coercion on the basis of and pursuant to the procedure provided by the Law Enforcement Act.

[RT I, 12.03.2015, 7 – entry into force 22.03.2015]

§ 33¹. Specifications for state supervision

(1) The Tax and Customs Board, the Consumer Protection and Technical Regulatory Authority and rural municipality and city governments may only enter, on the conditions provided for in §§ 49 and 50 of the Law Enforcement Act, the premises of a handler of tobacco products and products related to tobacco products and open the means of transport of a handler of tobacco products in the presence of the handler or a representative thereof.

[RT I, 12.12.2018, 3 – entry into force 01.01.2019]

(2) Law enforcement authorities have the right to:

1) seal storage facilities of tobacco products and products related to tobacco products which may be subject to confiscation;

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

2) if tobacco products and products related to tobacco products which may be subject to confiscation are discovered in a motor vehicle or a trailer attached to a motor vehicle, direct the motor vehicle to the nearest location where the confiscated tobacco products and products related to tobacco products can be stored in order to unload the tobacco products and products related to tobacco products.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

(3) Law enforcement authorities have the right to take samples from tobacco products and products related to tobacco products and, if necessary, order an expert assessment. The costs of the expert assessment shall be borne by the law enforcement authority. If it is established that the tobacco products and products related to tobacco products do not comply with the requirements, the undertaking shall compensate for the documented costs of the expert assessment.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

(4) Upon application of the special state supervision measure provided for in § 52 of the Law Enforcement Act on the basis of and pursuant to the procedure provided for in the Law Enforcement Act, police officers have the right to hand tobacco products and products related to tobacco products taken into storage over to a legal representative of a minor.

[RT I, 09.01.2018, 1 – entry into force 19.01.2018]

§ 33². Monitoring compliance with requirements by means of transaction for the purpose of monitoring compliance

(1) If the special state supervision measure provided for in § 33 of this Act does not enable or makes it especially complicated to conduct supervision over compliance with the requirements for trading in tobacco products or products related to tobacco products, but it is necessary for the purpose of ascertaining or averting danger or elimination of a violation, the law enforcement authority specified in clause 32 1) may, as a special state supervision measure, make a transaction for the purpose of monitoring compliance.

(2) If the special state supervision measure provided for in § 33 of this Act does not enable or makes it especially complicated to conduct supervision over compliance with the requirements provided for in subsections 28 (2)-(5), but it is necessary for the purpose of ascertaining or averting danger or elimination of a violation, the law enforcement authority specified in clause 32 6) may, as a special state supervision measure, make a transaction for the purpose of monitoring compliance.

(3) If needed, a person who is not liable for public order may be recruited to the making of a transaction for the purpose of monitoring compliance provided for in subsection (2) of this section only with the consent of the said person. The person to be recruited must be at least 16 years of age. If the person to be recruited is under 18 years of age, the written consent of their legal representative is required in addition to his or her own consent.

(4) The making of a transaction for the purpose of monitoring compliance shall be decided by the head of the law enforcement authority or an official authorised thereby.

(5) A transaction for the purpose of monitoring compliance is an act with the features of a sales contract or another transaction under the law of obligations the purpose of making of which is to monitor compliance with the requirements established by legislation. An official or recruited person making the transaction for the purpose of monitoring compliance may hide the purpose of the transaction from the person in respect of whom the transaction for the purpose of monitoring compliance is made and from other persons. The official making a transaction for the purpose of monitoring compliance need not introduce himself or herself and need not carry a uniform; the official is under no obligation to present his or her professional certificate prior to achievement of the purpose of the transaction for the purpose of monitoring compliance.

(6) Upon making a transaction for the purpose of monitoring compliance, it is prohibited to conduct surveillance activities, abet a person to commit an offence or commit an act with elements of an offence, it is also prohibited to use a person recruited for secret cooperation for ensuring the making of a transaction for the purpose of monitoring compliance, simulate a legal person, use an undercover agent or covert measures within the meaning of §§ 7⁵¹ and 7⁵⁴⁻⁷⁵⁷ of the Police and Border Guard Act.

(7) The law enforcement authority shall notify the person in respect of whom the transaction for the purpose of monitoring compliance was made, immediately after achievement of the purpose of the transaction for the purpose of monitoring compliance, of the fact that a transaction for the purpose of monitoring compliance has been applied to the person. The law enforcement authority may, by a written reasoned decision, postpone the notification of the person in respect of whom the transaction for the purpose of monitoring compliance was made if this is indispensable for continuation of supervision related to the activities of the same person or for monitoring by other persons of compliance with the requirements imposed on the making of such transactions. Notification of the person in respect of whom the transaction for the purpose of monitoring compliance was made shall not be postponed for more than three months starting from the day of making the transaction.

(8) The making of a transaction for the purpose of monitoring compliance shall be recorded in the minutes pursuant to the procedure provided for in § 12 of the Law Enforcement Act. The minutes of the transaction

for the purpose of monitoring compliance shall state the decision that served as a basis for the transaction for the purpose of monitoring compliance, officials who have participated in the transaction for the purpose of monitoring compliance and the person in respect of whom the transaction for the purpose of monitoring compliance was made as well as other participants in the proceedings and recruited persons, testimony by the officials concerning the circumstances and results of the transaction for the purpose of monitoring compliance, the description of things and documents transferred or received as a result of the transaction for the purpose of monitoring compliance and testimony, statements and opinions by other participants in the proceedings and persons recruited in the proceedings. If notification of the person in respect of whom the transaction for the purpose of monitoring compliance was made is postponed on the basis of and pursuant to the procedure provided for in subsection (7) of this section, a reference shall be made in the minutes of the transaction for the purpose of monitoring compliance to the decision on postponement. The minutes shall be served on the person in respect of whom the transaction for the purpose of monitoring compliance was made.

(9) A transaction made in the course of a transaction for the purpose of monitoring compliance is void.
