Chapter 1
General Provisions

§ 1. Purpose of Act

The purpose of the Universities Act is to provide the procedure for the establishment, merger, division, and termination of the activities of universities, the bases for the activities, limits of autonomy and principles of management of universities, the forms of and conditions for acquiring higher education, the legal status of the assets of universities, the procedure for financing universities, the basic rights and obligations of teaching staff and students, and administrative supervision over the activities of universities.

[RT I, 13.03.2014, 4 - entry into force 01.07.2014]

§ 2. Definitions used in this Act

In this Act, the following definitions are used:

1) “credit point” means a unit in which study load is calculated. One credit point corresponds to 40 hours or one week of study by a student. The study load of one academic year is 40 credit points. Upon implementation of the European Credit Transfer and Accumulation System, ECTS, one credit point corresponds to 26 hours of study by a student which makes 1560 hours and 60 credit points per one academic year. A system of calculation of the study load different from the one set out in this clause may be applied with regard to a portion of a joint curriculum pursued in an educational institution of a foreign state;

[RT I 2008, 34, 208 - entry into force 01.09.2008]

2) “academic degree” means a Bachelor’s level degree, Master’s level degree or Doctoral level degree which is awarded by a university to a person who has completed the curriculum of the corresponding academic level and defended his or her final paper or passed the final examination and which is certified by a corresponding graduation document;

3) “institutional accreditation” means external assessment in the course of which compliance of the management, organisation of work, instruction and research, and the environment of teaching, learning and research of a university with the legislation, objectives and development plan of a university are assessed;

[RT I, 08.11.2010, 4 - entry into force 18.11.2010]

31 “quality assessment of study programme group” means external assessment in the course of which the compliance of curricula as well as the study and study-related development based on the curricula with legislation, national and international standards and developments are assessed for the purpose of making recommendations for improvement of the quality of study;

[RT I, 08.11.2010, 4 - entry into force 18.11.2010]

32 “attestation of teaching staff” means the periodical evaluation of compliance of teaching staff with the work results and requirements for the office, the purpose of which is to support the development and career opportunities of teaching staff and by which the suitability of the attested employee to the office is determined;

[RT I 2008, 34, 208 - entry into force 01.09.2008]

4) “study based on the integrated curricula of Bachelor’s and Master’s study” means study following the curricula of medical training, veterinary training, pharmacist training, dentistry training, architectural studies or...
civil engineering studies or teacher training for class teachers, upon the completion of which a person is awarded a Master’s level degree;  
[RT I 2006, 49, 369 - entry into force 20.11.2006, partially 1.09.2007]
5) “occupational training” means the acquisition of knowledge, skills and experience for expert decision making and the execution of decisions in management, government and administration;
6) “professional training” means the acquisition of knowledge, skills and experience for operating as an expert in a particular field or area of specialisation;
7) “vocational training” means the acquisition of knowledge, skills and experience which is accompanied by ethical preparation for professional and occupational activities;
8) “qualification” means the required level of knowledge and skills which is documented;
9) “higher education” means education based on the scientific approach which is acquired on the basis of secondary education and which is certified by a corresponding graduation document;
[RT I 2008, 34, 208 - entry into force 01.09.2008]
10) [Repealed - RT I, 2008, 34, 208 – entered into force 01.01.2009]
11) [Repealed - RT I, 30.05.2012 – entered into force 01.01.2013]
11) 1) “activity support” means the support allocated from the state budget through the budget of the Ministry of Education and Research to an educational institution for the provision and development of instruction at the level of higher education and for the improvement of capability of an educational institution;  
12) “research degree” means a Doctoral level degree which is awarded by a university to a person who has completed the curriculum of Doctoral study to the full extent and defended a Doctoral thesis and which is certified by a corresponding graduation document, or a Master’s level degree in the case specified in subsection 56 (7) of this Act;  
[RT I 2008, 34, 208 - entry into force 01.09.2008]
13) “curriculum” means the source document for study which sets out the objectives of the studies to be undertaken, the standard period and volume of study, the conditions for the commencement of studies, the extent of the list of subjects, short descriptions of subjects, the opportunities and conditions for choosing subjects, the opportunities for specialisation and the conditions for the completion of studies;
13) 1) “joint curriculum” means the source document for study on the basis of which instruction is provided in two or more educational institutions enabling the acquisition of higher education and which have developed and approved the joint curriculum together. Requirements established for curriculum in the legislation shall be applied to the joint curriculum, taking into account the specifications established for the joint curriculum;  
[RT I 2008, 34, 208 - entry into force 01.09.2008]
14) “study programme group” means the classification established in the Standard of Higher Education which belongs to a broad group of studies and which covers groups of curricula with similar theoretical bases;
17) 1) “study programme group” means the classification established in the Standard of Higher Education which covers fields of study or groups of curricula and on the basis of which an educational institution can apply for and the Government of the Republic can issue the educational institution the right to provide instruction on the level of higher education and issue the respective academic degrees and diplomas;  
[RT I 2008, 34, 208 - entry into force 01.09.2008]
18) “broad group of studies” means a part of the classification of education established in the Standard of Higher Education which covers fields of study with similar content.
19) [Repealed - RT I 2003, 20, 116 – entered into force 10.03.2003]
20) “semester” means five months of study or a longer period of time upon the decision of an educational institution, the volume of which in credit points makes one-half of the study load of an academic year.  
[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

§ 3. Scope of application of Act

(1) This Act regulates the activities of the University of Tartu, Tallinn University of Technology, Tallinn University, the Estonian University of Life Sciences, the Estonian Academy of Arts and the Estonian Academy of Music and Theatre. This Act applies to the University of Tartu and Tallinn University of Technology in so
far as the University of Tartu Act and the Tallinn University of Technology Act respectively do not provide otherwise.

[RT I, 20.06.2014, 2 – entry into force 01.09.2014]

(2) This Act applies to private universities in so far as the Private Schools Act does not provide otherwise.

(3) The provisions of the Administrative Procedure Act apply to administrative proceedings prescribed in this Act, taking account of the specifications provided for in this Act.

[RT I 2005, 61, 475 - entry into force 27.11.2005]

§ 4. University

[RT I 2003, 20, 116 - entry into force 10.03.2003]

(1) A university is an educational, creative, research and development institution where instruction corresponding to the Standard of Higher Education is provided at the three levels of higher education. Doctoral study is based on positively evaluated research and development.

[RT I 2008, 34, 208 - entry into force 01.01.2014]

(2) The mission of a university is to advance science and culture, to provide services to the society which are based on educational, research and other creative activities and to help students become responsible citizens who are able to demonstrate initiative.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(3) Upon accomplishing its mission, universities cooperate with each other as well as with the entire society by supporting the development of the society and the preservation of national culture by effective research, development or other creative activities and by creating and developing possibilities based on integrated instruction and research activities for international cooperation, acquisition of higher education based on scientific approach as well as for continuing education.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(4) The word ülikool or the equivalent thereof in a foreign language may be used in the name of a university which conducts positively evaluated research and development in several fields of science and which provides instruction in several broad groups of studies at all levels of higher education.

[RT I 2008, 34, 208 - entry into force 01.01.2014]

§ 5. Establishment, merger, division, termination of activities and change of name of university

(1) The establishment, merger, division, termination of activities and change of name of a university shall be decided by the Riigikogu on the proposal of the Government of the Republic.

(2) The establishment, merger, division, termination of activities and change of name of a university shall be organised by the Ministry of Education and Research on the basis of a resolution of the Riigikogu.

[RT I 2002, 90, 521 - entry into force 01.01.2003]

§ 6. Establishment of university

(1) The establishment of a university shall be initiated by the Government of the Republic on the proposal of the minister responsible for the area.

(2) The mandatory requirements for the establishment of a university are as follows:

1) justification of the need to establish a new university;
2) a comprehensive development plan for the university which sets out the existence or the method of acquiring buildings, furnishings and material and financial resources which are necessary for education and research, and the curricula for the acquisition of academic higher education and the existence or the methods of recruiting teaching staff so that instruction can be provided pursuant to such curricula.

(3) The compliance of a university with the requirements provided for in subsection (2) of this section shall be inspected by the Ministry of Education and Research. The minister responsible for the area shall submit the inspection results to the Government of the Republic.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(4) The establishment of a university shall be decided by the Riigikogu on the proposal of the Government of the Republic.

(5) [Repealed - RT I 2008, 34, 208 – entered into force 01.09.2008]

(6) [Repealed - RT I 2003, 20, 116 – entered into force 10.03.2003]

(7) [Repealed - RT I 2003, 20, 116 – entered into force 10.03.2003]
§ 7. Merger and division of universities

(1) Merger is the unification of universities into one university or the joining of one university to another university. Division is the division of a university into two universities or the separation of one university from another university.

(2) A proposal for the merger or division of universities shall be presented where such merger or division is necessary for the development of the research and education system and to increase the standard of education and research.

(3) A proposal for merger or division shall be submitted to the Government of the Republic by the minister responsible for the area.

(4) The merger and division of universities shall be decided by the Riigikogu on the proposal of the Government of the Republic.

(5) The procedure for the establishment of a university prescribed in §§ 5 and 6 of this Act applies to a new university created as a result of a merger or division.

§ 8. Dissolution of university

(1) A university shall be dissolved by way of liquidation proceedings pursuant to the General Part of the Civil Code Act.

(2) A university shall be dissolved if:
   1) the necessity for further activity has ceased to exist;
   2) it is not possible to finance the university;
   3) in other cases provided by the law.

(3) A proposal to terminate the activities of a university shall be submitted to the Government of the Republic by the minister responsible for the area.

(4) The dissolution of a university shall be decided by the Riigikogu on the proposal of the Government of the Republic.

§ 9. Legal status of university

(1) A university is a legal person in public law which operates pursuant to this Act, other legislation and its statutes.

(2) The statutes of a university shall be adopted by the council of the university. The passive legal capacity of a university shall commence as of the moment of the adoption of its statutes.

(3) The list of such rights does not preclude other rights of legal persons which are in accordance with this Act, other Acts and the objectives of the university.

(4) The statutes of a university shall contain the following information:
   1) the full name of the university in Estonian and in English and seat of the university;
   2) the purpose of the activities and the functions of the university, and the areas of activity of the university (education, research, development, etc.);
   3) the conditions and procedure for studies and the procedure for the preparation of curricula;
4) members of the university and their rights and obligations;
5) the council of the university, the procedure for its formation and the bases for its activities;
6) the structure of the university, the development thereof, the procedure for amendment thereof, and the management of structural units;
7) reporting and auditing;
8) the procedure for the adoption of the statutes of the Student Body.

(7) A university and the institutions of a university shall be registered in the state register of state and local government agencies pursuant to the procedure provided for in the statutes of the register.

§ 10. Estonian Higher Education Quality Agency

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(1) Estonian Higher Education Quality Agency:
1) organises and implements institutional accreditation in educational institutions providing higher education;
2) organises and implements the quality assessment of study programme groups on the level of higher education;
3) performs other functions assigned thereto by legislation.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(2) The Estonian Higher Education Quality Agency is comprised of an office organising the assessment and an assessment council conducting assessment.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(3) The assessment council includes at least one expert from every broad group of studies. Candidates for the post of member of the council can be submitted by universities, institutions of professional higher education, research and development institutions, registered professional associations, associations of employers and associations of Student Bodies. No more than two members from the same university, institution of professional higher education, research and development institution, registered professional association, association of employers or association of Student Bodies may belong to the assessment council.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(4) In addition to the assessment council, the Estonian Higher Education Quality Agency shall involve experts in its activity, follows international principles in its activity, establishes and publishes the conditions and procedure for institutional accreditation and quality assessment proceeding from the differences of different types of educational institutions and undergoes periodic internationally recognised external evaluation.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(5) The minister responsible for the area shall be entitled to authorise a foundation for the performance of functions specified in subsection (1) of this section with whom a corresponding contract under public law shall be concluded.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(6) If the functions specified in subsection (1) of this section are performed by a foundation, the conditions and procedure for the formation of an assessment council, taking into account for the requirements specified in subsections (2)-(4) of this section, shall be established, the number of members of the assessment council shall be determined and the members of the assessment council shall be appointed by the council of the foundation.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

§ 12. Institutional accreditation

(1) A university shall ensure that the Estonian Higher Education Quality Agency or a competent quality agency of a foreign state with its approval shall perform the institutional accreditation of a university at least once within seven years or within the term specified by the Estonian Higher Education Quality Agency in the case specified in clause (2) 2) of this section.

(2) As the result of institutional accreditation, the Higher Education Quality Agency shall:
1) give an assessment whether the management, administration, instruction and research, and the environment of teaching, learning and research of the university correspond to the requirements, and shall make a decision to accredit the university for seven years;
2) give an assessment that there are deficiencies in the management, administration, instruction and research, and in the environment of teaching, learning and research of the university, issue guidelines for the elimination thereof and shall make a decision to accredit the university for three years;
3) give an assessment that the management, administration, instruction and research, and the environment of teaching, learning and research of the university do not correspond to the requirements and shall make a decision not to accredit the university.

[RT I, 08.11.2010, 4 - entry into force 18.11.2010]

(3) In the case specified in clause (2) 3) of this section, the minister responsible for the area shall:
1) give the university a deadline of up to two years for the elimination of deficiencies detected in the course of institutional accreditation and for participation in a new institutional accreditation, or
2) make a proposal to the Government of the Republic to declare the right of the university to provide instruction in study programme groups and to issue the respective academic degrees and diplomas invalid, and shall make a proposal to the Government of the Republic to initiate the merger, division or dissolution of a university.

[RT I, 08.11.2010, 4 - entry into force 18.11.2010]

(4) The costs related to institutional accreditation shall be covered from the state budget or, at the request of the university, through the budget of the university. If the university applies for the performance of accreditation from a quality agency of a foreign state, the costs related to accreditation shall be covered from the state budget in the extent of actual costs and in the amount which does not exceed the costs which would be covered in the case of a nationally conducted institutional accreditation.

[RT I, 08.11.2010, 4 - entry into force 18.11.2010]

(5) In the case specified in clause (3) 2) of this section, the minister responsible for the area shall initiate, if possible, the transfer of the right to provide instruction in study programme groups and to issue the respective academic degrees or diplomas to another educational institution with the obligation to ensure the quality and resources necessary for the provision of instruction in the study programme group and the possibility to continue their studies to as many of the students of the study programme group as possible. The proceedings of transfer of the right to provide instruction in study programme groups under the aforementioned circumstances shall not be subject to subsections 22(2) and (3) of this Act and the costs of expert assessment shall be covered from the state budget.

[RT I, 08.11.2010, 4 - entry into force 01.01.2011]

§ 12. [Repealed - RT I 2008, 34, 208 – entered into force 01.09.2008]

§ 122. Quality assessment of study programme group

(1) A university shall ensure that the Estonian Higher Education Quality Agency or a competent quality agency of a foreign state with its approval assesses the quality of a study programme group at least once within seven years or within a shorter term set by the Estonian Higher Education Quality Agency.

(2) The costs related to the quality assessment of study programme group shall be covered from the state budget or, at the request of the university, through the budget of the university. If the university applies for the performance of quality assessment of study programme group from a quality agency of a foreign state, the costs related to assessment shall be covered from the state budget in the extent of actual costs and in the amount which does not exceed the costs which would be covered in the case of a nationally conducted quality assessment of study programme group.

[RT I, 08.11.2010, 4 - entry into force 18.11.2010]

§ 13. State recognition of graduation documents of universities

(1) A university shall be entitled to issue only state graduation documents. A university issues graduation documents certifying higher education pursuant to the conditions and procedure specified in subsection 31 (4) of this Act.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(11) [Repealed - RT I 2008, 34, 208 – entered into force 01.09.2008]

(12) [Repealed - RT I 2008, 34, 208 – entered into force 01.09.2008]

(13) A person who has completed a joint curriculum in full shall be issued a joint diploma as a state document certifying education upon conformity with the conditions specified in subsection (1) of this section.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(14) In case part of a joint curriculum is implemented in an educational institution of a foreign state, the person having completed the joint curriculum in full shall be awarded:

1) a state document certifying education by Estonian educational institutions participating in the joint curriculum – a diploma according to subsection (1) of this section if one Estonian educational institution participates in the joint curriculum, or a joint diploma according to subsection (13) of this section if at least two Estonian educational institutions participate in the joint curriculum;
2) another document certifying education by all educational institutions participating in the joint curriculum – a joint diploma pursuant to the conditions and procedure prescribed in the joint curriculum cooperation contract.

[RT I 2008, 34, 208 - entry into force 01.09.2008]
§ 13. State-commissioned education

State documents certifying education (diplomas) awarded by universities shall be entered in the Estonian Education Information System founded on the basis of subsection 36(4) of the Republic of Estonia Education Act.

[RT I 2004, 56, 404 - entry into force 01.09.2004]

§ 131. State-commissioned education

State-commissioned education

§ 132. Filling of student places

(1) A person who complies with the admission requirements specified in the terms for admission established by the council of a university shall be matriculated as a student. In reasoned cases, a university may establish the upper limit for students to be matriculated in the terms for admission based on the ranking of the applicants.

[RT I 30.05.2012 – entered into force 01.01.2013]

(11) Based on the prior qualifications or special needs of the applicants, a university may divide them into groups upon filling of student places and establish different admission requirements for different groups. Upon the establishment of admission requirements, persons shall not be divided into groups pursuant to whether or not the reimbursement of study costs can be demanded from them.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(12) The terms for admission established by the council of a university are based on objective criteria which have been previously disclosed.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(2) [Repealed - RT I, 30.05.2012, 1 – entered into force 01.01.2013]

(3) [Repealed - RT I 2002, 56, 348 – entered into force 05.07.2002]

(4) Subsection 13 3(1) shall not be applied to a person from whom the reimbursement of study costs has not been demanded during at least one-half of the standard period of the curriculum within a period equal to three times the standard period of the completed curriculum or in case of study based on the integrated curricula of Bachelor’s and Master’s study within a period equal to twice the standard period of study upon studying at the same academic level.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(5) The term specified in subsection (4) of this section shall begin as of the matriculation of the person to the university. Upon calculation of the standard period of study, the curriculum to which the person was matriculated shall be proceeded from.

(6) Upon the allocation of activity support, fields of study and curricula can be agreed with regard to studying in which subsection 133 (1) of this Act shall be applied to students specified in subsection (4) of this section.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(7) Professional higher education and Bachelor’s study shall not be considered as the same levels of higher education for the purposes of subsection (4) of this section. For the purposes of subsection (4) of this section, study based on the integrated curricula of Bachelor’s and Master’s study shall be considered as a level of higher education equal to the Master’s study.

[RT I 2006, 49, 369 - entry into force 20.11.2006]

§ 133. Reimbursement of study costs

(1) A university is not entitled to demand the reimbursement of study costs from a student who:

1) studies full-time following a curriculum, the language of instruction of which is Estonian and who has by the starting semester cumulatively completed the study load subject to completion under the curriculum in the previous semesters;

2) studies in a field of study or following a curriculum for studying in which requirements other than specified in clause 1) of this subsection have been agreed upon the allocation of activity support.

(2) Unless agreed otherwise upon the allocation of activity support, a university is entitled to demand the partial reimbursement of study costs:

1) from a student who studies full-time following a curriculum, the language of instruction of which is Estonian and who has not by the starting semester cumulatively completed the study load subject to completion under the curriculum in the previous semesters;

2) from a student who studies part-time or following a curriculum, the language of instruction of which is other than Estonian;
3) from a student specified in subsection 132(4) of this Act.

(3) A university is entitled to demand the partial reimbursement of study costs from a student who has been deleted from the matriculation register and matriculated again at the same curriculum within two years.

(4) The rate and conditions for the partial reimbursement of study costs of a person admitted to a university shall be established by the council of the university at least four months before the commencement of an academic year. Upon establishing the rate of partial reimbursement of study costs of a student specified in clause (2) 1) of this section, the council of a university shall take into account the upper limit established under subsection (5) of this section and the study load uncompleted by a student. The council of a university may increase the rate of partial reimbursement of study costs of a person matriculated at a university by up to ten per cent in comparison with the previous academic year.

(5) The Government of the Republic shall establish, by a regulation, the upper limits of partial reimbursement of study costs for studies at the level of higher education for credit points by academic levels and taking into account for the differences of the curricula, if necessary, and based on the possible additional expenditures related to the provision of instruction, including the expenditures on teaching aids and teaching staff.

(6) A university shall not be entitled to the reimbursement of study costs from a student who has not complied with the requirements specified in clause (1) 1) of this section if the student continues his or her studies according to the same curriculum and if:
   1) he or she is a person with a moderate, severe or profound disability;
   2) he or she is the parent or guardian of a child under 7 years of age or a disabled child.

(7) The requirement on the completion of study load specified in clause (1) 1) of this section shall not be applied in semesters during which a student is studying, for at least three months, in an educational institution of a foreign state, the studies completed in which shall be accounted for by an educational institution in the amount of at least fifteen credit points of the European Credit Transfer and Accumulation System as part of completing its curriculum, and in the semester following the studies in a foreign state.

(8) In the case specified in subsection (7) of this section, the standard period of a curriculum shall be extended by every semester during which a student studied in an educational institution of a foreign state.

§ 22¹. Requirements for joint curriculum

A joint curriculum shall meet the following requirements:
1) a joint curriculum shall be opened in the framework of the same academic level or in case of cooperation with an educational institution of a foreign state in the framework of a level which is equal to an Estonian academic level and all educational institutions participating in the joint curriculum shall have the right to provide instruction of the respective level;
2) all educational institutions participating in the joint curriculum shall have the right, except the right granted for a term of one to three years, to provide instruction in the study programme group on the basis of which they participate in the joint curriculum according to the joint curriculum cooperation contract, and to issue the respective academic degrees and diplomas. This clause shall not be applied to the part provided in an educational institution of a foreign state;
§ 22. Joint curriculum cooperation contract

(1) In addition to the requirements established in the legislation, the organisation of studies based on a joint curriculum proceeds from the joint curriculum cooperation contract in which the following shall be set out:

1) the bases for joint organisation of studies, including the conditions and procedure for the admission of students, studying in different educational institutions, evaluation and determination of compliance in case of different evaluation systems, accounting for previous studies and work experience, exclusion, graduation, grant of qualification and issue of a graduation document and a duplicate thereof;

2) the language of instruction (languages of instruction);

3) joint bases for quality assurance, including the procedure for the development of curriculum and external evaluation;

4) the rights and obligations of students and teaching staff, counselling and support systems related to studying and teaching in different educational institutions and the procedure for resolving disputes;

5) in case of a tuition fee, the conditions and procedure for the establishment thereof, release therefrom, and grant of benefits and education allowances;

6) the division of liability between educational institutions participating in the joint curriculum, including the appointment of the Estonian educational institution which represents the parties of the joint curriculum cooperation contract in the performance of obligations arising from the legislation in Estonia, and the relation of rights and obligations of educational institutions in the performance of contract for allocation of activity support entered into with a university;

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

7) the conditions and procedure for the amendment of joint curriculum;

8) the bases and procedure for financing of studies and the related organisational activities, including the conditions and procedure for financing part of the studies conducted in an educational institution of a foreign state;

9) the conditions and procedure for continuation of studies in case one party waives the joint curriculum cooperation contract or the joint curriculum cooperation contract is amended significantly;

10) the conditions and procedure for termination of the joint curriculum cooperation contract, including the obligations of educational institutions in ensuring the continuation of studies of students.

(2) The joint curriculum cooperation contract is public pursuant to the procedure provided for in the Public Information Act.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

§ 22.3. Granting right to provide instruction

(1) The basis for provision of instruction is curricula corresponding to the Standard of Higher Education, which have been approved by the council of university and registered in the Estonian Education Information System established on the basis of subsection 36(4) of the Republic of Estonia Education Act.

(2) The study programme groups where a university has the right to open curricula and the academic degrees and diplomas awarded in the university shall be specified by the Government of the Republic on the proposal of the minister responsible for the area in the Annex to the Standard of Higher Education.
For the purpose of opening a curriculum in a new study programme group, a university submits an application to the Ministry of Education and Research at least nine months before the start of the academic year. The following shall be annexed to the application:

1) information about the curricula under which instruction is to be provided, including the objectives and learning outcomes of the curricula;
2) information about the ordinary teaching staff who are to provide instruction and of their qualifications;
3) information about the facilities and amenities required for teaching, learning and research, and about the sources of financing instruction;
4) reasons for the need to open a study, including information about the target group and proposals of the professional associations;
5) in case of the application for opening Doctoral study, information about the positive evaluation of research of the field of science being the basis for study.
6) [Repealed - RT I, 12.12.2011, 1 – entered into force 01.01.2012]

The Ministry of Education and Research shall organise expert assessment of the application and enclosed information, thereby assessing whether the quality of instruction, including the qualification requirements for teaching staff established by the council of the university and the qualifications of the teaching staff involved in teaching and the resources required for provision of instruction are sufficient and whether the described learning outcomes can be achieved by the curriculum and whether they comply with the requirements for provision of instruction at the level of higher education. The Ministry of Education and Research shall involve the Estonian Higher Education Quality Agency in the assessment of the quality of instruction. The costs of the expert assessment shall be borne by the applicant, except in the event specified in subsection 12 (5).

On the proposal of the minister responsible for the area the Government of the Republic has the right to:
1) grant a university the right to provide instruction in a study programme group and award academic degrees or diplomas following completion of the curriculum;
2) for a term of one to three years, grant a university the right to provide instruction in a study programme group and to award academic degrees or diplomas following completion of the curriculum.

If the minister responsible for the area makes the proposal specified in clause (5) 2) of this section, the minister shall set a term for the university upon the expiry of which a repeat expert assessment of the study programme group will be carried out pursuant to the procedure provided for in subsections (3) and (4) of this section. The costs of the repeat expert assessment shall be borne by the applicant.

If, based on the results of the expert assessment, the minister responsible for the area rejects the application for opening a curriculum in the new study programme group, the minister shall issue a directive rejecting the application.

On the proposal of the minister responsible for the area, the Government of the Republic has the right to revoke the right specified in subsection (2) of this section if:
1) in the course of administrative supervision, the unlawfulness of the operations of a university has been identified and a precept made for the purpose of stopping the infringement, prevention of further infringements and elimination of consequences caused by the infringement has not been complied with;
2) in the course of administrative supervision, it has been identified that the quality of the instruction assessed on the basis of clauses (3) 1)-3) of this section has considerably deteriorated or the management, work organisation, instruction and research, and the environment of teaching, learning and research in a university does not comply with the requirements;
3) an educational institution has failed to perform the duties provided for in subsection 12 (1) or subsection 12(1) of this Act;
4) the research of a field of science being the basis for opening Doctoral study received a negative evaluation;
5) the minister responsible for the area, for the third time, make a proposal to the Government of the Republic regarding the same study programme group to grant the right to provide instruction and award respective academic degrees and diplomas in the study programme group for a term of one to three years.

If the Government of the Republic revokes the right specified in subsection (2) of this section, the university shall terminate admission and teaching in the respective study programme group and, in cooperation with the Ministry of Education and Research, enable students to continue their studies in the same or another university in the same or similar field of study.
§ 22. Opening of joint curriculum

(1) In order to open a joint curriculum, the educational institution agreed upon in the joint curriculum cooperation contract shall submit an application to the Ministry of Education and Research at least nine months before the start of the academic year. The application shall include information on the compliance of the joint curriculum with section 22 of this Act and information on the compliance of the joint curriculum cooperation contract with section 22 of this Act.

(2) The Ministry of Education and Research shall inspect the compliance of the joint curriculum and joint curriculum cooperation contract with the requirements. A joint curriculum which complies with the requirements shall be registered in the Estonian Education Information System established on the basis of subsection § 36(4) of the Republic of Estonia Education Act.

(3) If, upon the inspection of the joint curriculum application and the information annexed thereto it cannot be established whether the quality of instruction provided on the basis of joint curriculum is sufficient and whether the learning outcomes described in the joint curriculum can be achieved with the curriculum, the Ministry of Education and Research shall organise the expert assessment of the joint curriculum. The Ministry of Education and Research shall involve the Estonian Higher Education Quality Agency in the expert assessment.

(4) If the result of the expert assessment specified in subsection (3) of this section is negative, the joint curriculum shall not be entered in the Estonian Education Information System established on the basis of subsection § 36(4) of the Republic of Estonia Education Act and the joint curriculum shall not be opened.

(5) If the result of the expert assessment specified in subsection (3) of this section is negative, the costs of the expert assessment shall be borne by the educational institutions participating in the joint curriculum pursuant to the procedure provided for in the joint curriculum cooperation contract.

(6) If the educational institution participating in the joint curriculum does not have the right to provide instruction in the study programme group to which the joint curriculum belongs and the joint curriculum and joint curriculum cooperation contract comply with the requirements, the Government of the Republic shall grant the educational institution the right to provide instruction in with regard to the part of the joint curriculum and issue the respective academic degrees and diplomas in the study programme group to which the joint curriculum belongs pursuant to the procedure provided for in subsection 22(2) of this Act.

§ 30. External students

(1) In external study, it is possible for a person to take examinations and assessments according to a curriculum and to defend his or her final paper and take the final examination without participating in regular study, under the conditions and pursuant to the procedure established by the council of the university.

[RT I 2003, 20, 116 - entry into force 10.03.2003]

(2) Provisions concerning formal education acquired within the adult education system within the meaning of the Adult Education Act apply to external students.

(3) External students are not deemed to be students. The legal status of external students and participants in in-service training courses is determined by law, the statutes of universities and other legislation.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

§ 31. Graduation documents certifying higher education

(1) A person who has completed Bachelor’s study, Master’s study or Doctoral study or study based on the integrated curricula of Bachelor’s and Master’s study shall, after completion of the curriculum to the full extent, be awarded a diploma certifying completion of the curriculum or the academic degree awarded together with an academic report.

(1 1) A person who has completed joint curriculum in full shall be awarded a joint diploma or a diploma certifying completion of the curriculum and the awarded qualification together with a diploma supplement according to subsection 13 (1 3) or (1 4) of this Act.

[RT I 2008, 34, 208 - entry into force 01.09.2008]
A person who has completed Bachelor’s study or Master’s study or study based on the integrated curricula of Bachelor’s and Master’s study may, under the conditions established by the minister responsible for the area, be awarded a diploma *cum laude*.

A university shall issue a diploma supplement in English to a person who has completed Master’s study or Doctoral study or study based on the integrated curricula of Bachelor’s and Master’s study. With the decision of an educational institution, a diploma supplement in English shall be issued to a person who has completed Bachelor’s study only on the basis of the corresponding request by the person. A person who has completed a joint curriculum in full shall be always issued a diploma supplement in English by educational institutions having agreed in the joint curriculum cooperation contract, regardless of the completed academic level.

Graduation documents certifying higher education shall be issued to a person by a university free of charge.

The format and statute of the diploma and academic report shall be approved by a regulation of the Government of the Republic.

§ 32. In-service training

In-service training means continuing education as defined in the Adult Education Act.

The fields and formats of and procedure for in-service training provided at a university shall be approved by the council of the university.

In-service training shall be legally regulated and financed pursuant to the Adult Education Act.

Chapter 4

Members

§ 33. Members of university

Employees and students of a university, and other persons specified in legislation and statutes of the university comprise the members of the university.

§ 34. Teaching staff and research staff

The teaching staff of a university consists of professors, docents, lecturers, assistants and teachers. Teaching staff can be divided into ordinary teaching staff and visiting teaching staff.

The research staff of a university may participate in the provision of instruction. The research staff of other research institutions and other persons having the required qualification participate in the conduct of Master’s and Doctoral study pursuant to the conditions and procedure established by the council of the university.

A member of the ordinary teaching staff or research staff shall be elected to office by way of competition.

The office of a member of the ordinary teaching staff or research staff may be filled by appointing to office a member of teaching staff or research staff complying with the qualification requirements and a fixed-term employment contract may be entered into therewith, if:
1) a competition for the election of a member of teaching staff or research staff has failed, or
2) the work performed in the office is of temporary fixed-term nature;

In the case specified in clause (4) 1) of this section, a fixed-term employment contract shall be entered into until the office is filled by way of competition, but not for longer than five years.

Under the conditions established by the council of the university, the Rector has the right to invite scientists or other distinguished creative persons or distinguished practicians of one’s speciality to provide instruction as a member of visiting teaching staff for up to five years without announcing a competition.
(6) The requirements for ordinary teaching staff and visiting teaching staff shall be established by the council of the university proceeding from the principles established in the Standard of Higher Education.

§ 35. Professorship

(1) The professorship consists of professors and professors emeritus.

(2) A professor is a leading faculty member in his or her speciality who participates actively in research, development or other creative activity on an international level, who organises and conducts the teaching of his or her subject, directs research, development or other creative activity and instructs students, teaching staff and research staff involved in these activities in an efficient manner.

(3) The title of professor emeritus may be awarded by the council of a university to a member of the teaching staff who has worked at the university as a professor for at least ten years or who has been elected as an ordinary professor at least twice and who has attained pensionable age. A professor emeritus is entitled to participate in the activity of a university whereas he or she does not fill the office of an ordinary professor, and to receive the remuneration of a professor emeritus pursuant to the procedure established by the council of the university.

(4) The payment of remunerations of professors emeritus shall be supported from the activity support allocated from the state budget.

§ 36. Docents

(1) A docent is a member of the teaching staff who provides instruction in his or her subject at a university, participates actively in research, development or other creative activities and instructs students and teaching staff involved in these activities in an efficient manner.

(2) The title of docent emeritus may be awarded by the council of a university to a member of the teaching staff who has worked at the university as a docent for at least fifteen years and who has attained pensionable age. Upon awarding the title of docent emeritus, the university may account employment as a professor or research professor into the length of employment of a docent. A docent emeritus is entitled to participate in the activity of a university whereas he or she does not fill the office of an ordinary docent, and to receive the remuneration of a docent emeritus pursuant to the procedure established by the council of the university.

(3) The payment of remunerations of docents emeritus shall be supported from the activity support allocated from the state budget.

§ 37. Lecturers, assistants and teachers

(1) A lecturer is a member of the teaching staff who provides instruction at a university in the first two levels of higher education or in all levels of higher education if the lecturer has a research degree. A lecturer instructs students in the first and second level of higher education and may be involved in research and development.

(2) An assistant leads seminars, practical training classes and practice sessions in the first two levels of higher education at a university. An assistant may instruct students in the first and second level of higher education and may be involved in research and development.

(3) A teacher leads seminars, practical training classes and practice sessions in the first two levels of higher education at a university, performs other practical teaching duties, may instruct students in the first level of higher education and may be involved in research and development.

§ 38. Research staff

Requirements for research staff are provided by the Research and Development Organisation Act.
§ 39. Employment relationships of teaching staff and research staff

1. The position of a member of the ordinary teaching staff and research staff at a university shall be filled by way of public competition with equal conditions for all participants, except in the case specified in subsection 34 (4) of this Act.
[RT I, 03.07.2014, 17 - entry into force 01.01.2015]

2. The conditions of a competition and the competition procedure shall be determined by the council of the university.

3. Professors shall be elected by the council of the university, and other members of the teaching staff and research staff shall be elected by the collegial decision-making body of the structural unit.

4. The Rector shall enter into contracts of employment with persons who win a competition. Entry into a contract of employment may be refused if the conditions of the competition or the competition procedure have been violated.

5, 6. Repealed

7. Members of the ordinary teaching staff of a university have the right to a sabbatical semester with pay once every five years in order to supplement their professional skills or for other creative activity.

§ 391. Specifications for conclusion of fixed-term employment contracts

1. Upon consecutive conclusion or renewal of fixed-term employment contracts with a Vice Rector or a member of visiting teaching staff, the employment relationship shall not turn into an employment relationship established for an unspecified term.
[RT I, 03.07.2014, 17 – entry into force 01.01.2015]

2. An employment contract shall be made for an unspecified term with a person who is currently employed in the same university and has worked as a professor for at least eleven years and who has been evaluated on the conditions and pursuant to the procedure established by the council of the university.
[RT I 2009, 48, 324 - entry into force 23.10.2009]

§ 392. Evaluation of members of ordinary teaching staff and research staff

1. A university shall evaluate the members of the ordinary teaching staff and research staff at least once in every five years of employment.

2. If a member of the ordinary teaching staff or research staff does not pass the evaluation, the employment contract entered into with him or her may be cancelled extraordinarily on the conditions and pursuant to the procedure provided for in the Employment Contracts Act.
[RT I, 03.07.2014, 17 – entry into force 01.01.2015]

§ 40. Other employees of universities

The rights and obligations of other employees of a university shall be determined in the legislation regulating employment relationships.
[RT I 2009, 5, 35 - entry into force 01.07.2009]

§ 41. Student

1. A student is a person who has been admitted (matriculated) to a university in full-time or part-time professional higher education, Bachelor’s, Master’s or Doctoral study or study based on the integrated curricula of Bachelor’s and Master’s study.
[RT I 2008, 34, 208 - entry into force 01.09.2008]

2. In case of a joint curriculum, a person specified in subsection (1) of this section shall be admitted (matriculated) to every educational institution providing instruction on the basis of a joint curriculum in which he or she undergoes study.
[RT I 2008, 34, 208 - entry into force 01.09.2008]

§ 42. Rights and obligations of students

1. Students have the right to:
1) choose subjects for their curricula outside their field of study pursuant to the procedure established by the council of the university, regardless of their speciality;

1\) acquire higher education without the reimbursement of study costs, unless prescribed otherwise in this Act;
[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

2) attend lectures, practical training classes and seminars and take examinations and assessments outside their curricula whereas members of the teaching staff may restrict the participation of students from outside their curricula if the study conditions (workplaces, teaching aids, etc.) do not allow for it;

2\) in case of studies in a joint curriculum, complete a significant part of the joint curriculum at an educational institution participating in the joint curriculum whereas studying in every form of study shall be deemed to be studying at another educational institution participating in the joint curriculum;
[RT I 2008, 34, 208 - entry into force 01.09.2008]

3) use lecture halls, laboratories, computer rooms, libraries, equipment and other assets free of charge pursuant to the procedure established in the university;

4) continue their studies pursuant to another curriculum or at another university should the university or any of its curricula be closed;

5) elect their representatives and be elected to the collegial decision-making bodies of the university;

6) submit a reasoned request to the Rector for the removal of a member of the teaching staff from teaching activities;

7) obtain a study allowance and a study loan under the conditions and pursuant to the procedure provided for in the Study Allowances and Study Loans Act;

8) take academic leave, generally of up to one year, once at each academic level pursuant to the procedure established by the council of the university, and additional academic leave of up to two years for health reasons, of up to one year in the case of undergoing compulsory military service or alternative service, and to care for a child until the child attains three years of age;
[RT I, 10.07.2012, 2 - entry into force 01.04.2013]

9) obtain the study programmes, study modules and other information necessary for their studies;

9\) receive academic affairs and career advice;

§ 48. Other restrictions on civil rights

(1) A university shall not provide sponsor support, grant loans or credit or make donations to foundations.

(2) [Repealed - RT I 1999, 10, 150 – entered into force 15.02.1999]

(3) Universities may found legal persons in private law for the performance of the functions specified in their statutes pursuant to the procedure provided by law.

(3.1) Legal persons in private law specified in subsection (3) of this section, with the exception of foundations where one of the founders is the state, shall not found private schools or research and development institutions in private law.

(5) A university has the right to accept property, including securities, as a pledge pursuant to the procedure established by the Government of the Republic.

(6) A university has the right to provide services related to the main activities of the university for a charge (in-service training for a charge, contractual research, professional consultations, etc.) to other persons and any revenue received therefrom shall accrue to the budget of the university.
[RT I 2008, 34, 208 - entry into force 01.09.2008]

(7) The provisions of this section do not restrict the passive legal capacity of a university.
[RT I 2002, 53, 336 - entry into force 01.07.2002]

Chapter 6
Procedure for Financing

§ 49. Financing of universities

(1) The revenue of a university is comprised of money allocated from the state budget, money received to reimburse study costs, revenue from the provision of services related to the main activities for a charge, revenue from research and development activities and other income.

(2) Legal and natural persons have the right to apply for the opening of student places at a university out of their own funds and the filling of student places shall be based on the provisions of § 13 of this Act.
[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(3) [Repealed - RT I, 30.05.2012, 1 – entered into force 01.01.2013]

§ 50.1. Calculation of funds from state budget to educational institutions for provision of instruction at level of higher education and allocation of activity support and support for specific purposes to universities
(1) The state budget funds for activity support shall be divided by the minister responsible for the area to institutions of professional higher education and universities as basic funding to the extent of at least 80 per cent and as performance funding up to the extent of 20 per cent.

(2) Upon formation of the proportion of activity support calculated for a university from the basic funding, the proportion of each educational institution providing instruction at the level of higher education shall be established, taking into account the average amount of activity support allocated to the university within three calendar years preceding the year for which activity support is determined and the total amount of activity support allocated to the educational institutions within the same period. With the decision of the minister responsible for the area the, the following may be taken into account upon formation of the aforementioned proportion:
1) the support for specific purposes allocated to a university;
2) change in the structure or size of a university.

(3) Upon formation of the proportion of activity support calculated for an educational institution providing instruction at the level of higher education from the performance funding, the implementation of the contract under public law and the following performance indicators shall be taken into account:
1) the quality indicators for the provision of instruction, including international mobility indicators and the university’s obligation to develop a broad group of studies, study programme group or curriculum of national importance as agreed in the contract under public law;
2) the efficiency indicators for the provision of instruction, including the indicators of efficiency of participating in instruction and the indicators of revenue received from educational activities;
3) the indicators for support of social development, including the indicators of employment and continuing education of the graduates.

(4) The specifications of performance indicators taken into account upon the designation of the proportion of activity support allocated from performance funding for educational institutions providing instruction at the level of higher education, the proportions thereof, the bases for calculation of performance funding and the rate of performance pay of Doctoral study shall be established by a regulation of the Government of the Republic.

(5) For the allocation of activity support to a university, a contract under public law based on the mission, objectives and functions of a university and the necessities of the state shall be entered into between the university and the minister responsible for the area. The Government of the Republic shall approve the draft contract under public law on the proposal of the minister responsible for the area. For the implementation of the contract under public law, the minister responsible for the area shall conclude a funding agreement with the university in every calendar year. In case of designation of support for specific purposes to a university it shall be allocated with a funding agreement.

(6) The contract under public law shall set out the following:
1) basic obligations arising from the mission, objectives and functions of a university and necessities of the state, including the obligations regarding the extent, quality and efficiency of provision of instruction at the level of higher education and the objectives of allocation of activity support and support for specific purposes;
2) exceptions according to which a university is not entitled to demand the partial reimbursement of study costs from students who are studying in a field of study or following a curriculum, the language of instruction of which is other than Estonian or who have not, by the starting semester cumulatively completed the study load subject to completion under the curriculum in the previous semesters or from students specified in subsection 132 (4) of this Act;
3) curricula on the basis of which a university is allowed to conduct only part-time study;
4) upon financing Doctoral study, the bases of calculation of Doctoral allowance fund, the number of student places in Doctoral study which the university is required to create in the corresponding academic year, and the expected number of graduates which a university is required to ensure in the corresponding year;
5) bases of allocation of student scholarship fund;
6) conditions for allocation of other funds, if necessary;
7) format of reporting.

(7) For the conclusion of the contract under public law and funding agreement entered into with a university, the minister responsible for the area shall negotiate with the university, based on strategic objectives of the state, and taking into account the mission, objectives and functions of the university, the predicted need for specialists with higher education in the labour market, the proposals of ministries, local government associations, registered professional associations and universities, and the funds designated for the provision of instruction at the level of higher education in the state budget.

(8) After the end of the standard period of Doctoral study, the Ministry of Education and Research shall cover the costs of Doctoral study of a university to the extent of the amount which is obtained by multiplying the number of Doctoral level degrees defended within that term by the performance pay of Doctoral study. If the number of Doctoral level degrees defended in all universities is more than the total number of student places agreed in the contracts under public law, the costs of Doctoral study shall be covered based on the number of student places agreed in the contract under public law with each university. If possible, the costs of a university
for the defended Doctoral level degrees exceeding the number of student places in Doctoral study agreed with the university shall also be covered, taking into account the proportion of student places agreed with the universities.

(9) The types and amounts of student scholarships and the general terms for the grant thereof shall be established by a regulation of the Government of the Republic.

§ 51. Budget of university

(1) A balanced budget shall be prepared concerning all revenue and expenditure of a university. The budget of a university specified in subsection 3 (1) of this Act shall comply with the financial plan, budget balance rules provided for in § 6 of State Budget Act, net debt rules provided for in § 10 and the restrictions established under § 11 of State Budget Act.

[RT I, 13.03.2014, 4 - entry into force 01.07.2014]

§ 531. Competence of state supervisory agency

(1) In order to achieve its objectives, the state supervisory agency has the right to:
1) examine the evidence and information at the disposal of a university on the basis of which it is possible to establish facts essential to the performance of the functions of the state supervisory agency, and to obtain copies of or extracts from documents;
2) issue precepts for termination of violations of the requirements provided for in this Act or legislation established on the basis thereof, prevention of further violations and elimination of the consequences of a violation.

(2) In the performance of its functions, the state supervisory agency shall be impartial in its assessments and base its decisions on legislation and reliable information.
(3) In the event of failure to comply with a precept, the state supervisory agency may impose a penalty payment pursuant to the procedure provided for in the Substitutive Enforcement and Penalty Payment Act. The upper limit for a penalty payment is 640 euros.
[RT I 2010, 22, 108 - entry into force 01.01.2011]

§ 53. Precept

(1) A precept shall contain:
1) the bases for the issue of the precept together with a reference to the relevant provisions of legislation;
2) the date of preparation of the precept;
3) the term for compliance with the precept;
4) the names, positions and signatures of the officials who carried out administrative supervision;
5) the possibilities, term and procedure for contestation of the precept.

(2) The Ministry of Education and Research shall send a precept to the Rector of the university by post or using electronic means within ten days as of the making of the precept.

(3) If the Rector of the university does not agree with the precept, he or she has the right to file a challenge with the Ministry of Education and Research within one month as of the receipt of the precept.

§ 55. Accreditation and status

(1) Any person who, before 1 June 2002, graduates from a university in public law on the basis of a curriculum which is entered in the Estonian Education Information System founded on the basis of subsection 36(4) of the Republic of Estonia Education Act but which has not been accredited shall be issued a document certifying state education by the university, until the entry into force of an accreditation decision concerning the university.

(3) A university has the right to apply for the extension of an accreditation decision before the expiry of the period of validity thereof concerning a curriculum which has been entered in the Estonian Education Information System founded on the basis of subsection 36(4) of the Republic of Estonia Education Act before 1 June 2002 to a curriculum in the same field of study which has been approved by the council of the university and which has been entered in the Estonian Education Information System founded on the basis of subsection 36(4) of the Republic of Estonia Education Act as of 1 June 2002. The extension of an accreditation decision concerning a curriculum to curricula in the same field of study which have been approved by the council of the university and which have been entered in the register of curricula at the Ministry of Education and Research shall be approved by the minister responsible for the area on the proposal of the Higher Education Quality Assessment Council.

(4) If, by 30 June 2003, less than three years have passed since the entry into force of a negative accreditation decision concerning a curriculum, the university may request a second accreditation of the curriculum within one year as of 1 September 2003. If the university does not request a second accreditation, the university shall terminate the admission of students and the provision of education pursuant to the curriculum and, in cooperation with the Ministry of Education and Research, ensure that the students have the opportunity to continue their studies at the same or another university in the same or a similar field of study.
[RT I 2005, 38, 297 - entry into force 17.07.2005]
§ 55. Implementation of state-commissioned education

(1) Contracts for state-commissioned education entered into between the Ministry of Education and Research and universities before 1 June 2002 shall be valid until the parties to such contracts have performed their contractual obligations.

(2) Until the admission of students for the academic year 2005/2006, the Ministry of Education and Research may determine the provision of state-commissioned education at a university in the training of teachers pursuant to a teacher training curriculum which follows Bachelor's study and the standard duration of which is one year by financing the number of student places specified in the contract for state-commissioned education to the extent of the calculated cost of a student place on the teacher training during the standard period of study for teacher training.

(3) The Ministry of Education and Research may exercise the right to decrease the financing of state-commissioned education by deducting that part of the expenditure which was made from the state budget for state-commissioned education which was not provided as of determining state-commissioned education for the academic year 2009/2010.

§ 55d. Specifications for restrictions on reimbursement of study costs

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(1) Subsections 132(4)-(6) of this Act shall not be applied to the studies of a person for the completion of which a person has been matriculated to university before 29 July 1996.

(2) Subsections 132(4)-(6) of this Act shall be applied to persons who have been matriculated to university after 29 July 1996 but before 10 March 2003 upon the following conditions:
   1) the person has completed studies in connection with the completion of curriculum in full, or
   2) the person has been deleted from the matriculation register of a university after 10 March 2003 on a ground other than the completion of curriculum in full.

(3) For the purpose of subsection 132(4) of this Act, higher vocational education and Bachelor’s study as well as Diploma study and Bachelor’s study are not considered the same levels of higher education.

[RT I 2006, 49, 369 - entry into force 20.11.2006]

§ 55e. Employment contracts entered into with members of teaching staff and research staff

(1) A fixed-term employment contract entered into with a member of the ordinary teaching staff or research staff before 1 January 2015 shall be valid on the conditions and pursuant to the procedure specified therein until the expiry of the term specified in the employment contract.

(2) If an employment contract is entered into with a member of the ordinary teaching staff or research staff after 1 January 2015 and at least two consecutive fixed-term employment contracts have been entered into with the same person for the performance of similar work or if the fixed-term contract entered into previously has been renewed more than once in five years, the employment relationship shall be deemed to be entered into for an unspecified term from the beginning. Entry into fixed-term employment contracts shall be deemed to be consecutive if the time between the expiry of one employment contract and entry into the next one does not exceed two months.

(3) If a person holds a valid fixed-term employment contract for working in the office of a professor on 1 January 2015 and it is his or her eleventh year of employment as a professor at the same university after the aforementioned date and he or she has been evaluated on the conditions and pursuant to the procedure established by the council of the university, an employment contract for an unspecified term shall be entered into with him or her without announcing a competition.

§ 56. Transition

(1) Collegial decision-making bodies and employees elected at universities prior to the entry into force of this Act shall act until the end of the election cycle unless statutes which have entered into force in the meantime prescribe otherwise.

(2) A Rector shall ensure that the statutes of the university are brought into conformity with the requirements of this Act within six months as of the entry into force of this Act.

(3) Graduation documents certifying higher education acquired prior to the entry into force of this Act grant the right to commence Master's study and Doctoral study pursuant to the procedure established by the council of a university.
(4) The Government of the Republic shall form the Higher Education Quality Assessment Council within six months as of the entry into force of this Act.

(5) The Government of the Republic shall appoint the members of the boards of governors not later than by 1 January 1997.

(6) Universities shall bring their curricula into conformity with the requirements of this Act by 1 September 2002. The curricula shall apply to students matriculated at universities as of the academic year 2002/2003. A university has the right to apply the curricula to students matriculated at the university before the academic year 2002/2003 if a student so requests.

(7) Until 1 September 2005, universities also have the right to create student places on the basis of the curricula of Master’s study and Doctoral study which have been entered in the Estonian Education Information System founded on the basis of subsection 36(4) of the Republic of Estonia Education Act before 1 June 2002 and on the basis of teacher training curricula which follow Bachelor's study and the standard duration of which is one year for students matriculated at a university as of the academic year 2002/2003. Persons who graduate from a university on the basis of the specified curricula of Master’s study or Doctoral study shall be awarded a Master’s level degree or Doctoral level degree as a research or professional degree.

(8) In order for students matriculated in diploma study before 30 June 2002 to undergo their studies, diploma study may continue at universities until 1 September 2007.

(9) Subsection 31 (3) of this Act applies to students who graduate as of the academic year 2002/2003. Persons who graduated before the academic year 2002/2003 have the right to obtain a diploma supplement in English pursuant to the procedure established by the council of the university.

(10) Universities shall bring their statutes into conformity with the requirements of this Act by 1 September 2003.

(11) Universities shall bring their activities into conformity with subsection 4 (1) of this Act by 1 September 2005. If, after 1 September 2005, Bachelor's study, Master's study and Doctoral study are not carried out in several fields of study at a university, the Government of the Republic shall make a proposal to the Riigikogu to terminate the activities of the university.

(12) Full-time and part-time study shall apply to students admitted to universities as of the academic year 2003/2004.

(13) The European Credit Transfer and Accumulation System shall be applied to curricula as of the academic year 2009/2010. The calculation of European Credit Transfer and Accumulation System shall be applied to the issue of diploma supplements as of 1 January 2010 whereas the credit points used to calculate the volume of study before the academic year 2009/2010 shall be recalculated into credit points of the European Credit Transfer and Accumulation System.

(14) Universities shall establish the conditions and procedure for assessing the qualifications of teaching staff and for taking account of the previous study results and professional experience of students as specified in clause 14 (3) 4) of this Act not later than by 1 September 2004. Universities shall, not later than by 1 September 2003, establish the conditions and procedure for taking account of the previous study results and professional experience of students who study in a field of study or according to a curriculum agreed upon in the contract for state-commissioned education and on the basis of which the university has formed student places for part-time study for the provision of state-commissioned education.

(15) The reimbursement of study costs shall apply to students admitted to universities as of the academic year 2003/2004. A university has the right to demand that students admitted to the university before the academic year 2003/2004 reimburse study costs under the conditions and pursuant to the procedure applied with regard to them before the academic year 2003/2004.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(16) The regulation of partial reimbursement of study costs specified in § 13 of this Act shall apply to students matriculated at a university as of the academic year 2013/2014.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(17) A university has the right to demand that students matriculated at a university before the academic year 2013/2014 reimburse study costs under the conditions and pursuant to the procedure applied with regard to them before the academic year 2013/2014 until the end of the academic year 2015/2016. As of the academic year 2016/2017, the provisions of § 13 of this Act shall be applied to the reimbursement of study costs of students matriculated at a university before the academic year 2013/2014.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]
The basic cost of Doctoral study in 2013–2015 shall be established in the state budget of the respective year.
[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

The regulation specified in subsection § 22 (10) of this Act according to which a student may not complete a curriculum during his or her stay on academic leave shall be applied to students matriculated at a university as of the academic year 2013/2014.
[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

Students matriculated at a university before the academic year 2013/2014 shall be entitled to complete a curriculum during their stay on academic leave under the conditions and pursuant to the procedure established by the council of the university until the end of the academic year 2015/2016. As of the academic year 2013/2014, a student matriculated at a university before the academic year 2013/2014 shall be entitled to complete the curriculum during his or her stay on academic leave if he or she is a person with a moderate, severe or profound disability; he or she is the parent or guardian of a child under 3 years of age or a disabled child; he or she is on academic leave in connection with undergoing compulsory military service or alternative service. As of the academic year 2016/2017, the provisions of subsection 22 (10) of this Act shall be applied to students matriculated at a university before the academic year 2013/2014.
[RT I, 10.07.2012, 2 - entry into force 01.04.2013]

Upon allocation of funds from the state budget in 2013 to educational institutions for the provision of instruction at the level of higher education, the volume of state-commissioned education requested of the educational institution in 2012 shall be accounted for to the extent of at least 80 per cent, and indicators related to students who reimburse study costs, conduct of Doctoral study and activities supporting studies which are of national importance to the extent of up to 20 per cent. Upon allocation of funds from the state budget in 2014 and 2015 to educational institutions for the provision of instruction at the level of higher education, the proportional volume of activity support allocated to the educational institution in the previous year shall be accounted for to the extent of at least 80 per cent, and the extent, quality and efficiency of provision of instruction at educational institutions, conduct of Doctoral study and activities supporting studies which are of national importance to the extent of up to 20 per cent.

§ 56^7. Transition to assessment of study programme groups of educational institutions as of 1 January 2009

(1) § 22^3 of this Act shall enter into force on 1 January 2011.

(2) The Estonian Higher Education Quality Agency shall be formed no later than by 1 January 2009.

(4) If the minister responsible for the area authorises a foundation to perform the functions specified in subsection 10 (1) of this Act, the contract under public law specified in subsection 10 (5) shall be concluded no later than by 1 January 2009.

(5) Until 31 December 2011 the Estonian Higher Education Quality Agency shall assess the study programme groups of educational institutions in addition to the functions specified in clauses 10 (1) 1) and 2) of this Act.
(6) As of 1 January 2012 a university may provide instruction only if, on the basis of the university’s application, the Government of the Republic has granted the university the right to provide instruction at the level of higher education in the respective study programme group and award respective academic degrees and diplomas.

(7) In order to obtain the right to provide education in a study programme group and for the purpose of awarding the respective academic degrees and diplomas, a university or, in the event of a joint curriculum, the educational institution specified in the joint curriculum cooperation contract shall submit an application accompanied by the details of the positive accreditation decisions of the curricula belonging in the study programme group and of the positive institutional accreditation decision in force and:
1) data of the curricula under which instruction is to be provided, including the objectives and learning outcomes of the curricula;
2) data of the ordinary teaching staff who are to provide instruction in the study programme group and of their qualifications;
3) information about the facilities and amenities required for teaching, learning and research, and about the sources of financing instruction;
4) development plan of the university;
5) a positive decision on the evaluation of research and development of the field or data of research and development in case of lack thereof;
6) at the discretion of the applicant, other data available in the Estonian Education Information System and in the Estonian Research Information System, which indicates the quality, resources or sustainability required for provision of instruction;
7) in the event of a joint curriculum, information about the compliance of the joint curriculum with § 221 of this Act and information about the compliance of the joint curriculum cooperation contract with § 222 of this Act.

(8) The Estonian Higher Education Quality Agency shall, with the help of experts involved, assess on the basis of a proper application, enclosed data, the Standard of Higher Education and other legislation, whether the applicant has the required quality, resources and sustainability for provision of instruction and, in the event of a joint curriculum, whether the joint curriculum and the joint curriculum cooperation contract comply with the requirements of §§ 224 and 225 of this Act, and, based on the results of the assessment, make a proposal to the minister responsible for the area:
1) to grant the university the right to provide instruction in the study programme group and award the respective academic degree or diploma after completion of the curriculum and submit the said proposal to the Government of the Republic for approval in the Annex to the Standard of Higher Education (positively accredit the study programme group);
2) to grant the university the right to provide instruction in the study programme group and award the respective academic degree or diploma after completion of the curriculum for a term of one to three years and submit the said proposal to the Government of the Republic for approval in the Standard of Higher Education (positively accredit the study programme group for a fixed term);
3) not to grant the university the right to provide instruction or issue respective academic degrees and diplomas if it appears from the data given in subsection (7) of this section that high-quality instruction at the level of higher education cannot be provided (negatively accredit the study programme group).

(9) If the Estonian Higher Education Quality Agency makes the proposal specified in clause 8 2) of this section, it shall set a term upon the expiry of which a repeat assessment of the study programme group will be carried out pursuant to the procedure provided for in subsections (7) and (8) of this section.

(10) The study programme groups where a university has the right to provide instruction in and the academic degrees and diplomas to be awarded upon completion of studies shall, on the proposal of the minister responsible for the area, be specified by the Government of the Republic in the Annex to the Standard of Higher Education once a year, in 2010, and in 2011 up to twice a year.

(11) If the Estonian Higher Education Quality Agency makes a proposal specified in clause 8 3) of this section or, for the third time, the proposal specified in clause 8 2) of this section to the minister responsible for the area, the minister shall not submit it to the Government of the Republic and shall, by a directive, approve the decision not to grant the university the right to provide instruction in the study programme group or to award the respective academic degrees and diplomas. The university shall terminate admission of students and instruction in the study programme group and, in cooperation with the Ministry of Education and Research, enable the students the chance to continue their studies at the same or another educational institution in the same or a similar field of study.

(11) The specific procedure for transition to the assessment of study programme groups of educational institutions providing the acquisition of higher education shall be established by a directive of the minister responsible for the area.

(12) A person has the right to receive a national graduation document if, no sooner than two years before granting the study programme group of the university the right to provide instruction and to award respective academic degrees and diplomas pursuant to the procedure specified in subsection (10) of this section, the
person has received a graduation document certifying the completion of the curriculum of the respective study programme group in the university.

(13) Institutional accreditation and the quality assessment of study programme groups shall be applied for and carried out at a university as of 1 January 2010 and if the university has been granted the right to provide instruction at the level of higher education and to award the respective academic degrees and diplomas in at least one study programme group.
[RT I 2008, 34, 208 - entry into force 01.09.2008]

(14) A university has the right to issue a document certifying education, which has not been approved by the state, to a person who has completed studies on the basis of a non-accredited curriculum if the university has submitted an application specified in subsection (7) of this section for the purpose of obtaining the right to provide instruction and to award the respective academic degrees and diplomas in the study programme group where the curriculum belongs.
[RT I 2009, 48, 324 - entry into force 23.10.2009]

§ 56. Processing accreditation applications submitted before 1 September 2008

(1) Accreditation applications submitted before 1 September 2008 shall be processed on the conditions and pursuant to the procedure in force at the moment of submission of the application, including on the basis of the requirements and the accreditation procedure established by a regulation of the Government of the Republic with regard to curricula and the university that are being accredited, until 31 December 2009.

(2) As of 1 January 2009 the functions of the Estonian Higher Education Quality Assessment Council regarding processing the applications specified in subsection (1) of this section shall be performed by the Estonian Higher Education Quality Agency.

(3) Following accreditation on the basis of the accreditation applications specified in subsection (1) of this section, the Estonian Higher Education Quality Agency shall make a proposal to the minister responsible for the area:
1) positively accredit the curriculum or the university until the Government of the Republic grants the study programme group of the university where the curriculum to be accredited belongs the right to provide instruction and to award the respective academic degree or diploma upon completion of the curriculum;
2) negatively accredit the curriculum and terminate admission of students to the curriculum at the university and, within a fixed term of no longer than three years, terminate teaching and learning under the respective curriculum;
3) negatively accredit the university and initiate the closure of the university.

(4) In the events specified in clauses (3) 2) and 3) of this section, the university shall, in cooperation with the Ministry of Education and Research, enable the students to continue their studies in another university in the same or in a similar field of study.

(5) A proposal of the Estonian Higher Education Quality Agency made following accreditation shall be approved by a directive of the minister responsible for the area. The minister responsible for the area has the right to reject the proposal of the Estonian Higher Education Quality Agency with a motivated directive and submit it for a second examination.
[RT I 2008, 34, 208 - entry into force 01.09.2008]

§ 56. National recognition of graduation documents issued to graduates of curricula accredited pursuant to procedure in force before 1 September 2008

(1) A national graduation document shall be issued to the graduates of curricula accredited pursuant to the procedure in force before 1 September 2008 if:
1) the curriculum has been accredited positively, or
2) the validity of the positive accreditation decision of the curriculum has terminated after 31 August 2009 and the university has submitted the application specified in subsection 56(7) to obtain the right to provide instruction and award the respective academic degrees and diplomas in the study programme group where the curriculum belongs.
[RT I 2009, 48, 324 - entry into force 23.10.2009]

(2) A person has the right to receive a national graduation document if no more than two years before the curriculum was positively accredited pursuant to the procedure in force before 1 September 2008 a document certifying education was issued to the person.
[RT I 2008, 34, 208 - entry into force 01.09.2008]
§ 5610. Implementation of requirements for teaching staff

(1) A person who has been nominated professor *emeritus* before 1 September 2008 shall receive the remuneration of a professor *emeritus* which is 75 per cent of the remuneration of an academician and which shall be allocated to the university among the volume of activity support allocated from the state budget.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(2) A person who has been nominated docent *emeritus* before 1 September 2008 shall receive the remuneration of a docent *emeritus* pursuant to the conditions and procedure which applied at the time of nomination, which is up to 50 per cent of the remuneration of professor *emeritus* and the payment of which shall be supported from the state budget among the volume of allocated activity support.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(3) The requirements for the teaching staff specified in §§ 35–37 of this Act shall apply to elections of teaching staff as of 1 January 2009. Employment contracts made with teaching staff before 1 January 2009 shall remain in force until expiry of the term specified in the employment contract.

[RT I 2008, 34, 208 - entry into force 01.09.2008]

(4) A university shall bring its operations into compliance with clause 14 (3) 13 of this Act not later than by 1 January 2010.

[RT I 2009, 48, 324 - entry into force 23.10.2009]

§ 5611. State-commissioned education

(1) The contracts for state-commissioned education concluded between the Ministry of Education and Research and the university before 1 September 2008 stay in force until the parties to the contract have performed their contractual obligations.

(2) A university shall create the number of student places needed to provide state-commissioned education specified in subsection (1) of this section pursuant to the procedure in force before 1 September 2008 on the basis of positively accredited curricula. A university may create student places on the basis of curricula which have not been accredited if so agreed in the contract for state-commissioned education.

(3) If, after the end of the standard period of Bachelor’s study, professional higher education study, Master’s study or study based on the integrated curricula of Bachelor’s and Master’s study, the number of persons who graduate from university having completed such study is smaller than the number of graduates specified in the contract for state-commissioned education concluded before 1 September 2008, the Ministry of Education and Research has the right when determining state-commissioned education as of the academic year 2009/2010, to reduce the financing of the university to the extent of non-performed state commissioned education, thereby reducing the state budget funds allocated on the basis of a performance agreement.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(4) The contracts for state-commissioned education entered into between the Ministry of Education and Research and the universities in 2009 shall be deemed to be concluded for four years.

[RT I, 30.05.2012, 1 - entry into force 01.01.2013]

(5) The contracts for state-commissioned education entered into between the Ministry of Education and Research and the universities before 1 January 2013 stay in force until the parties have implemented their contractual obligations.

§ 5612. Application for opening joint curriculum until 31 December 2008

(1) Until 31 December 2008 the educational institution specified in the joint curriculum cooperation contract shall submit the following after the approval of the joint curriculum and approval of entry into the joint curriculum cooperation contract in the council of the educational institution:

1) to the Ministry of Education and Research, an application to register the joint curriculum, enclosing the respective joint curriculum compliant with § 221 of this Act, other documents certifying compliance with the requirements provided for in § 221 of this Act and the joint curriculum cooperation contract in compliance with § 222 of this Act;

2) to the Estonian Higher Education Quality Assessment Council, an application to extend to the joint curriculum the decision to accredit the curricula serving as the basis for the joint curriculum.

(2) The minister responsible for the area shall approve the joint curriculum by a directive and it shall be entered in the Estonian Education Information System founded on the basis of subsection 366(4) of the Republic of Estonia Education Act if:

1) the result of the expert assessment specified in subsection (4) of this section is positive;

2) the Estonian Higher Education Quality Assessment Council or, as of 1 January 2009, the Estonian Higher Education Quality Agency shall, on the basis of subsection (5) of this section, decide to extend to the joint curriculum the decision to accredit the curricula serving as the basis for the joint curriculum.
(3) Clause (1) 2) and clause (2) 2) of this section shall not be applied to the registration of the joint curriculum of Doctoral study, except in case if the joint curriculum of Doctoral study complies with the requirements specified in clause 22 1(2) of this Act.

(4) For the purpose of identifying whether the joint curriculum and the joint curriculum cooperation contract comply with the requirements provided for in §§ 22 1 and 22 2 of this Act, the minister responsible for the area shall order by a directive that an expert assessment of the joint curriculum and the joint curriculum cooperation contract be carried out and form an ad hoc expert committee for carrying out the assessment. Before the expert assessment, the educational institution specified in the joint curriculum cooperation contract shall, within one month after the issue of the directive specified in this subsection, pay a security deposit for the amount requested in the directive, but no more than 10,000 kroons, which shall be refunded if the result of the expert assessment is positive. If the result of the expert assessment is negative, the educational institution specified in the joint curriculum cooperation contract shall bear the expenses of the expert assessment.

(5) Upon the registration of a joint curriculum, the Estonian Higher Education Quality Assessment Council or, as of 1 January 2009, the Estonian Higher Education Quality Agency shall, on the basis of an application specified in clause (1) 2) of this section, decide on the extension of the accreditation decisions of the curricula, which serve as the basis for the joint curriculum, to the joint curriculum on the basis of the compliance of the curricula, which serve as the basis for the joint curriculum, with legislation and standards and the terms of validity of the accreditation decisions. The decision to extend the accreditation decisions of the underlying curricula to the joint curriculum shall be effective to the extent of at least the standard duration of the joint curriculum, but no longer than until 1 January 2012. The extension of the decision to accredit a curriculum to a joint curriculum shall be approved by a directive of the minister responsible for the area on a proposal of the Estonian Higher Education Quality Assessment Council or, as of 1 January 2009, on a proposal of the Estonian Higher Education Quality Agency.

§ 56 14. Opening joint curriculum until 31 December 2010

(1) After registration of the joint curriculum and approval of entry into joint curriculum cooperation contract in the council of the university, the joint curriculum shall be entered in the Estonian Education Information System founded on the basis of subsection 36 6(4) of the Republic of Estonia Education Act if:

1) the joint curriculum corresponds to §§ 22 1 and 22 2 of this Act;
2) the accreditation decision of the curricula which serve as the basis for the joint curriculum shall be extended to the joint curriculum on the basis of subsection (4) of this section.

(2) Clause (1) 2) of this section shall not be applied to the joint curriculum of Doctoral study, except in case if the joint curriculum of Doctoral study complies with the requirements specified in clause 22 1(2) of this Act.

(3) For the purpose of identifying whether the joint curriculum and the joint curriculum cooperation contract comply with the requirements provided for in §§ 22 1 and 22 2 of this Act, the minister responsible for the area shall order by a directive that an expert assessment of the joint curriculum and the joint curriculum cooperation contract be carried out and form an ad hoc expert committee for carrying out the assessment.
(4) The Estonian Higher Education Quality Agency shall, on the basis of an application of the educational institution agreed upon in the joint curriculum cooperation contract, decide on the extension of the accreditation decisions of the curricula, which serve as the basis for the joint curriculum, to the joint curriculum on the basis of the compliance of the curricula, which serve as the basis for the joint curriculum, with legislation and standards. The decision to extend the accreditation decisions of the underlying curricula to the joint curriculum shall be effective until grant of the right to provide instruction in the respective study programme group, but no longer than until 31 December 2011. The extension of the decision to accredit a curriculum to a joint curriculum shall be approved by a directive of the minister responsible for the area on a proposal of the Estonian Higher Education Quality Agency.
